THE METHODIST CONFERENCE.

This Methodist body, which recently
closed its labors after a number of days
of earnest deliberation upon matters affect-
ing the welfare of the Church which its
members represented, signalled itself in
many respects.

Perhaps the most important was an at-
tempt on the part of some clergymen and
laymen to what may be termed liberalize
and modernize the Church by eliminating
from its discipline the interpretation given
to certain of its rules, which prevent mem-
bers from indulging in, or enjoying, what
many of them look upon as innocent and
useful amusements. This attempt was
defeated. We have not space to copy or
enter into a discussion of the reasons ad-
vanced pro and con. These can be found
in the columns of the Christian Guardian.
It may be well, however, to note that Mr.
Nixon, of Winnipeg, a layman, wanted a
resolution passed, which he moved, having
for its object the expulsion from membership
in the Church of every one who played a
game of cards, attended a theatre, or in-
dulged in any such like pastimes. The
good sense of the members voted it down
on the ground that the rules were explicit
enough on such points. This Mr. Nixon
will be better known to our readers as
"Proton Nixon," who figured so prominently
in connection with the school lands in
the township of Proton during the time
of the Mackenzie Government. There was
a time when such members and some
clergymen of the Church looked upon and
denounced baseball and cricket as sinful
and unchristian. It appears that all the
cranks and superlatively good-godly men
have not yet passed away. "Proton
Nixon" is a sample.

Free Masonry was next brought under
review, and, by a small majority, the report
says, a resolution was adopted, declaring
that the Free Masons would be considered in
interference with Christian liberty, "never-
theless, we think our ministers and mem-
bers should keep steadily in view the duty
of holding all things in subordination to
loyalty to Christ and the establishment of
His Kingdom in the earth." A very good
"nevertheless," all true Masons will ex-
claim, knowing as they do, that one is not
incompatible with the other. Many, how-
ever, will ask the question, why was such a
subject mooted or discussed in a Method-
ist conference? It is because there are, as
among its members, those who are ready
to join in the anathemas hurled against
Masonry by the Roman Catholic Church
yet at the same time railing against
Romanism.

A debate of an animated character took
place upon a motion to admit women to
membership in the conference, in which
Dr. Potts introduced the remark
that it was only wanted by the "new
women," when Judge Chesley created an
uproar of laughter and applause by shout-
ing back: "It's evident the old women
don't want it." The innovation was negat-
ived by a small majority.

A question arose in connection with the
report of the Discipline Committee, on the
point in the Discipline relating to the em-
ployment of laymen in the Church courts.
The clause in the Discipline reads: "No
parties may appear and conduct a trial or
an appeal, either personally or by a re-
presentative, who is a member of the
Church, in good standing. But this shall
not be understood as authorizing or per-
mitting the employment of professional coun-
sel in our Church courts." The agitation
was for the exclusion of laymen, who, ac-
cording to many members of the Con-
ference, were not desirable in Church
courts. It was contended that in some
cases, where one party might have a lawyer
for the other might not, and would be at a
disadvantage. Then it was pointed out
by Dr. Allison, of Mount Allison University,
Sackville, N. B., that the mode of getting
round corners and arguing out of things
was not to be properly brought into Church
courts. A motion by Rev. Dr. Ross, that
the discipline authorize both parties to
have lawyers, was lost. One by Rev. W. A.
Kiddell, however, was carried that such
representation should be not a professional
lawyer. This exclusion of laymen from the
Church courts, whether employed or appear-
ing as a friend of either party.

It is evident that the Rev. W. A. Kid-
dell knew little of the subject with which
he was dealing. It is the unprofessional
lawyer, as a rule, is the most danger-
ous. The "professional lawyer" has a
reputation at stake and is the least to be
feared. Where were Judge Dean, Judge
Deacon, Mr. McLean and Mr. Aikine

when this absurd proviso was adopted? It
appears that even clergymen would fool
themselves over and over.

The action of the Conference in condemn-
ing ministers who leave for the United
States without giving due notice and pay-
ing their bills to the Bookroom, was a serious
reproof upon such men and justly con-
demned them. Dr. Carson instructed the
Secretary to write asking American Bishops
to use their influence to prevent their recip-
ing into the ministry of the United States
Methodist Episcopal Church.

Most people in Canada will wish that the
Church in Canada was well rid of such "min-
isters."

The Conference decided to memorialize
the Home Government to have the order of
preference of clergy at state functions abol-
ished. So says the report of the proceed-
ings. If the memorial be as here stated, it
is to be feared the request will not receive
much attention. The question of prece-
dence cannot well be abolished, but it
should be changed and amended. As it is
now, to clergymen representing large and
influential bodies of Christians, such as
Presbyterians and Methodists, will, hav-
ing any regard for the body over which he
presides, attend state functions while the
lower and uneducated clergy, and the
present order of precedence exists, and the
request is promulgated in Canada the sooner dis-
content and agitation upon the subject will
cease.

WHAT OUGHT TO BE DONE.

The Montreal Witness, commenting upon
the result of the polling on the 29th
Sept. last, says editorially:

"Owing to the advantage in Quebec,
the total majority in favor of prohibition
in the country is but small. It is, how-
ever, a distinct and important victory for
the cause. The Government would legis-
late in accordance with the majority of the
people. No Government would scruple
to rule by virtue of a majority that is
of twenty thousand votes. Nor does a
majority in every province. One province,
indeed, is just now ruling all the rest, be-
cause it has a majority large enough to
obliterate all the minorities. That province
could not be expected to rule all the rest,
when it falls to wipe out their unan-
imous majority. Sometimes one province has
the rule by the rest. If members of
Parliament are ruled in this manner by
their constituents, and support prohibitory
legislation."

THE WITNESS LAYS DOWN THE CORRECT PRINCIPLE, BUT WE VENTURE THE PREDICTION THAT THE GOVERNMENT WILL NOT GIVE PRACTICAL EFFECT TO THE WILL OF THE MAJORITY. THE WITNESS WILL FIND AN EXCUSE TO JUSTIFY A DEFENCE OF LAURIER AND HIS CABINET. IF IT DOES NOT, IT WILL DO VIOLENCE TO ITS PAST RECORD.

TARTER'S PAPER.

In a former article we stated our belief
that, in dealing with the question of pro-
hibition, the Premier would find a "con-
stitutional" reason for seeing through
French spectacles. Tarter's paper, La
Patrie, the \$30,000 Drummond County
organ of the Government, puts the point
modestly, thus:

"Without knowing or foreseeing what our
friends at Ottawa will do in the new situa-
tion created by yesterday's plebiscite, we
trust the various organs of the Government
to say that prohibition will not take up its
ancient home in the Dominion, and the rule of
law will be respected by those who govern."

Certainly Quebec "will be respected" as the expense of the other seven provinces.

WILL HE TAKE IT?

Remember that Mr. Grey was to be Succeeded
the Late Hon. M. C. Cameron.
Nelson Mason as Premier.

Ottawa, Oct. 2.—A rumour is current
that Hon. Thomas Dufferin will succeed
the late Hon. M. C. Cameron as Lieut-
enant-Governor of the Northwest Terri-
tories, which would be a great gain to the
Northwest Territory.

WHAT ABOUT THE TOWN OF WELL.

Experimental Farm Crops Will Average
30 to 35 Bushels Per Acre.

Ottawa, Oct. 2.—The Director of the
Experimental Farm has very encouraging
news from the superintendents of the
branch Experimental Farms in Manitoba
and the Northwest Territories, where
withstanding the unfavorable weather
during harvest, the grain both in quantity
and quality is turning out remarkably well.

Under date of Sept. 26, Mr. Angus
McKay, superintendent of the farm at
Indian Head, says: "From all parts of
this district wheat is turning out even
better than expected, both in yield and
quality. The lowest yield reported is 25
bushels per acre on stubble land, while
many have over 30 bushels with some
of the best of the crop. The wheat on summer
fallow land are going from 30 to 45
bushels, so that taking the whole district
there will be an average of from 30 to 35
bushels per acre."

Oils Mann, the clerk of the water-
works branch, city hall, who is accused
of embezzling funds of the city to the
extent of \$500, was arrested here Satur-
day night.

French Shore Commission.

St. John's, Nfld., Oct. 2.—The British
Royal Commission appointed to investi-
gate the French treaty rights in New-
foundland has completed its tour of the
treaty coast and returned to St. John's
yesterday to complete the evidence con-
cerning the difficulties between French
and British subjects over the lobster and
herring fisheries. By studying the
evidence of witnesses, it is expected to
occupy a couple of weeks, after which the
commissioners will negotiate with the
colonial ministry for a basis of settlement
with France.

CHINA'S EMPEROR SUICIDED

Which, in the Celestial Empire, Means He Was Assassinated.

The deed occurred after the return of the Emperor from his tour of the English-speaking officials trusted out of the Chinese Foreign Office—Cause of the Emperor's Deposition—Yin to the Kwangsi Successor.

London, Oct. 3.—A special despatch from Shanghai says it is semi-officially announced that the Emperor of China committed suicide on Sept. 31. It is now said that the dismissal of Li Hsun Chang, who was the ally of the Dowager Empress, and the strong pressure of Russia, which country was barred at the probable result of the mission of the Marquis Ito to China, and the true cause of the Emperor's deposition.

The Emperor Suicided. A later special despatch from Shanghai says it is semi-officially announced that the Emperor of China committed suicide on Sept. 31. It is now said that the dismissal of Li Hsun Chang, who was the ally of the Dowager Empress, and the strong pressure of Russia, which country was barred at the probable result of the mission of the Marquis Ito to China, and the true cause of the Emperor's deposition.

The man who will now ascend the throne of China is Yin, a grandson of Prince Kung. He is a good-looking, intelligent young man of decidedly progressive leanings. He is related by the Chinese as being the legitimate successor of the Emperor's predecessor, Kwang Hsu. Englishmen too have much to declare he will not be a puppet like his predecessor. He has a strong will, and, moreover, is not related to the Dowager Empress.

Tuan Tschih Hsi Not Opposed to Progress. A prominent resident of Peking, Mr. Dodge, who is the only foreigner who ever dined with Yin, asserts that the Dowager Empress is not opposed to progress. He adds that she was responsible for the installation of the electric light in the palace, and introduced a railroad and an electric launch into the palace grounds. She is also held to have favored other western ideas.

Was the Emperor Tortured? A special despatch from Shanghai says the announcement of the death of the Emperor is confirmed. The reports as to the means employed in his taking off differ. One story is that he died of poison, and another that death was caused by strangulation, while a third states that he was slain by a single blow. A red hot iron being thrust through his bowels.

Europeans "Muddled." During the celebration yesterday of the Festival of the Moon the drunken crowds which had gathered upon the streets threw mud upon Europeans who made their appearance. As a precautionary measure, the Russian Legation ordered an escort of Cossacks from Port Arthur. The British Minister ordered here a guard of 25 marines from Wei Hai Wei.

Another Bad Symptom. According to a despatch to the Times from Shanghai, Hsin Tsu, who has been appointed President of the Court of Congress and a member of the Grand Council. He is Hsin Tsu's chief supporter and was recently dismissed from office by the Emperor. The projected Imperial review of the forces at Tien Tsin has been abandoned.

BAILEIFF IN ZOLA'S HOUSE.

Octave Mirbeau Offered to Pay the Damages, But the Authorities Refused.

Paris, Oct. 3.—Octave Mirbeau's offer to defray the damages obtained against Zola by the handwriting experts in the Dreyfus and Esterhazy cases, who charged him with slander, has been refused by the representatives of the experts, because M. Mirbeau insists that "full reserves" be mentioned in the receipt.

The judgment against M. Zola has not been moved and a process server, a value and clerk Friday afternoon visited at the lawyer's residence for the purpose of taking an inventory, etc., of the property there, for use in the judicial sale that has been ordered.

Admission was refused by Mme. Zola, whereupon they forced an entrance. Mme. Zola, who had obtained counsel's opinion that M. Mirbeau's protest was valid, indignantly expostulated, but the bailiff was unmoved and listed the tapestries, paintings and other articles of value and belongings in the novelist's study. Mme. Zola's bedroom and the other apartments in her house. This incident will lead to another lawsuit.

A WOMAN IN THE CASE.

M. Turot of the Lanterne Fights a Duel With M. Paulmier.

Paris, Oct. 3.—A duel between M. Paulmier, deputy from Calvados, and M. Turot, of the Lanterne, was fought Saturday morning, rapier being the weapons used. M. Turot was wounded in the thigh and side, and M. Paulmier was slightly wounded on the hip.

M. Paulmier was wounded on the hip. M. Turot was wounded in the thigh and side. The duel was fought on the grounds of the Lanterne and was witnessed by a large number of people.

Every woman was a crown who was the mother of a healthy baby. The mother of a puny, sickly, peevish child is a cross. It rests with every woman to make her baby healthy and happy.

The woman who takes the right care of her child from birth to the age of five years, will find that her baby will be healthy and happy.

MAD CHAMPAGNE TOGETHER. Marchand Was Amiable When Kitchen Helped Him Out.

London, Oct. 3.—A despatch from Cairo to the Daily Telegraph confirms the report that numbers of the French army had been sent to the Sudan to deal with the Dervish garrisons, which had gone to fetch reinforcements. He was in some trouble under the Dervish army had died and deserted. On the arrival of the Sudan he had the entire force of about 120 Senegalese and five Frenchmen entrenched on a small town of land. The natives in that vicinity were very nervous.

Major Marchand came to the water's edge to meet the Sudan and chatted amicably with him. The Frenchman produced some champagne and drinks were had all round.

Marchand Promoted. Paris, Oct. 3.—Captain Marchand has been promoted to the rank of major.

Will Not Wait for Marchand. Paris, Oct. 3.—In order to avoid loss of time the British and French Governments have decided not to await the arrival of Major Marchand's report, but to negotiate immediately for the settlement of occupation of Fashoda.

Reinforcements Ordered Forward. Cairo, Oct. 3.—Reinforcements have been ordered from Omdurman to Khartoum, where the French army has been repulsed another Dervish attack with slight loss. There is no news from Fashoda, but it is all probability that Marchand will shortly evacuate his position there.

AFRAID OF THE ANARCHISTS.

Special Precautions Taken to Protect Royal Personages in England.

London, Oct. 3.—Extraordinary precautions are being taken to protect all royal personages in England. Extra detectives have been ordered to follow wherever members of the royal family travel, and to be on hand in case of any emergency. It is stated that the Queen will no longer take her customary drives with only a couple of squires in attendance, but will be accompanied by a large force of cavalry will surround the royal carriage on all occasions.

It is hinted that information has been received in London of a most serious Anarchist conspiracy.

THE TRIAL OF LUCCHINI.

London, Oct. 3.—The Anarchist assassin of the Emperor of Austria, the Italian, Lucchini, will be tried during the first week in November. He will be charged with the murder of the Emperor.

Only one man has hitherto undergone the punishment, which has more terrors than capital punishment. The prisoner is confined in an underground cell, into which no sunshine ever penetrates. He is not allowed a bed, must sleep on the ground, and is only permitted to exercise once a week in the prison yard.

Madrid, Oct. 3.—The Anarchist assassin of the Emperor of Austria, the Italian, Lucchini, will be tried during the first week in November. He will be charged with the murder of the Emperor.

THE GENERAL CONFERENCE.

A Bright, Chatty Account of the Doings of Methodism's Supreme Court.

(Continued.)

I have some knowledge of deliberative bodies, clerical and lay; the Methodist General Conference is no exception. It is a body of men, the only legislative body in Methodism. All the other parts being administrative—you can imagine the kind of questions that pass in review or are discussed in the committee or before the quinquennial. I am not sure that it is the prerogative of every member of the church to memorialize the general conference. I am sure that every question he or she may think affects the church, you will have some idea of the multitudinous subjects that have to be considered. Let me give you a couple of illustrations: a person sent a document 27 pages of folio containing some good ideas, but which seemed to be a mere repetition of the General Superintendency, it must have cost weeks of preparation. Several of the Free-Methodists are an organization unit for any Christian to be connected with, and although not one of them had ever been a Mason, spoke of it as the most interesting and instructive of all, and asked that all members of the Methodist Church be prohibited from being members of any other lodge, and the question was quickly and squarely met.

Another protested against the reading of sermons from manuscripts in the pulpit; this seemed a very reasonable question, but the host of the conference was quick to answer.

In brief, what did the last General Conference do?

It listened and "applauded to the echo" of the most extensive (not exhaustive) mind you say, quite exhilarating and trenchant addresses ever listened to from a General Superintendent.

It decided to shorten the first time in its history the whole church in one great convocation, and called it THE TWENTY-FIRST CENTURY TRANSITION FUND, in which every boy and girl, and man and woman in Methodism will be asked, in gratitude for what God has done for and through Methodism in this century for them and his blessing, to first give themselves and then what they can afford, over and above their ordinary contributions to this fund, for the payment of local debts and the extension of the great Missionary, Educational and Philanthropic agencies of our church.

It settled satisfactorily all parties difficult which had arisen in our mission in Japan.

After four years experience of it, it pronounced the extended pastorate a success, and recommended the continuation of it, so that now if three-fourths of the members of a Quarterly Official Board desire it, a pastor may stay with them four or five years.

It resolved that Quarterly tickets were to be done away with and an annual membership card given in lieu, except where a Quarterly Official Board desired to retain the tickets.

It made Presidents of Ladies' Aid Societies members of Quarterly Official Boards. It decided with an overwhelming vote, after a most animated discussion, that no change should be made in the foot-note attached to the General Rules which declares what kinds of amusements are appropriate to spiritual growth.

Although four years experience had memorialized for it, it refused to give women seats in the church, although admitting them to vote, via the Quarterly Board, on the plea that "the women had not asked for the change." The logical conclusion is that the majority of the General Conference think that the women have brains and grace enough to be members of the Quarterly Official Board and to manage most successfully class meetings, Ladies' Aid Societies, Young People's Societies and Women's Christian Unions, but not enough to be members of district Conferences or Annual and General Conferences.

There will be a change come in the spirit of their dreams" on this question when the coming century is very young.

The great social problems of the day were carefully considered by a committee of the General Conference, and the committee reported that the General Conference should be a social body, and that the General Conference should be a social body, and that the General Conference should be a social body.

While not in one lot, the conference advanced ground always taken on the question of the prohibition of the liquor traffic, and the conference was not prepared to endorse the wholehearted action of the Temperance Committee's report of the laws passed to restrain, control and bring within the surveillance of the law the sale of intoxicating liquors, and the report was adopted in compliance with the views of the Conference.

It was unanimously resolved to commence a new monthly paper to be the organ of the Epworth League.

It was only after great opposition and by a decided majority that the Conference decided to create a new General Conference office, General Secretary of Sunday Schools and Epworth Leagues. So wise was the decision, and so successful was the result, that the office was created, and the General Secretary of Sunday Schools and Epworth Leagues was elected.

In the three years since his appointment the Rev. A. C. Crow had travelled 120,000 miles and had given 886 addresses and sermons. He surely has given "full proof of his ministry." The Holy Spirit has attended in many ways the work of this man, and the work was a Divine one.

In view of the fact that the church has 900,000 adherents and only 270,000 of these are enrolled in some department of the church, the conference decided to publish a Sunday School, the Conference Sunday School, for every Methodist and Epworth League in some department.

I have not time to give you a synopsis of the figures showing the overall picture of our church, but I can tell you that the church is growing, and that the church is growing, and that the church is growing.

GROWTH OF PEARLS.

THE CHINESE METHOD TRIED ON FRESH-WATER MUSSELS.

Experiments Conducted by Yung Shun-ming, with the Success of the Chinese Method.

We are told by Yung Shun-ming, in the Popular Science News, that the Chinese method of inducing the growth of pearls, which has been known and practiced in China for centuries. If others have this success, everyone who has access to a body of fresh water containing shell fish may now grow his own pearls, although it is doubtful whether the quality of the product will be such as to bring wealth.

The method of inducing the growth of pearls, which has been known and practiced in China for centuries. If others have this success, everyone who has access to a body of fresh water containing shell fish may now grow his own pearls, although it is doubtful whether the quality of the product will be such as to bring wealth.

A PARENTAL DUTY.

It is the duty of all parents to know whether the eyesight of their children is perfect or defective. One child out of every three has imperfect vision. These children are at a disadvantage and cannot be expected to progress with the rest, unless the defect is corrected and relieved by proper glasses. Many hereditary eye defects may be overcome in children if taken in time. We make friends with the little ones. Consultation and advice free.

BEAR ISLAND MASSACRE.

The Troops Were Massacred in an Ambush

Troops are Being Hurried Forward—More Battles Looked For—White Settlers to Join the Troops.

(Special to the INTELLIGENCER.)

BUFFALO, N.Y., Oct. 6.—The reports which came from the Indian country this morning state that the American soldiers sent out to quiet disturbances yesterday, were led into ambush and massacred.

The Government is sending reinforcements to Bear Island, the scene of the uprising, and more battles are looked for.

The details of the battle are so meagre that it is not known whether the reports are true or not, but the belief is that Walker, Minn., is the scene of the trouble.

Whites in the vicinity of the uprising are arming themselves and preparing to join the troops in fighting the red men.

WINNIPEG BANK ROBBERY

Bank Manager Warned—Had Been Informed an Attempt Would Be Made.

WINNIPEG, Oct. 5. Five combination locks and one key lock have to be opened before the treasury compartment can be entered. Each combination is known only to one man, and the final door opening into the treasury compartment has two combination locks, and two men must be present when the door is opened. One of these combinations is supposed to be known only to the manager of the bank, and the other to the accountant, or in the absence of either, by some one designated by the manager. There are probably three or four members of the Melton Bank staff who know the combination of the main portion of the vault.

"It was learned this afternoon that Manager Phelps received a warning from a well-known private detective that an attempt would be made to rob the bank. He gave the name of one of the parties implicated in the plot. In consequence of this warning two clerks have slept in the bank every night since the 12th of September.

That the plot had any connection with the robbery of the \$22,000 is not believed, for the man whose name was given to the detective as being one of the parties is still serving a three months' sentence.

There is such a strong flavor of the Melton Bank robbery, of which the recent disclosures are still fresh in memory, that some think there was collusion between some one who knew the combination of the vault and the treasury compartment and outside parties.

The theory is advanced that no one outside the bank had anything to do with the robbery; and still again it is believed that some one in the bank was in the know, and is still serving a three months' sentence.

The theory is advanced that no one outside the bank had anything to do with the robbery; and still again it is believed that some one in the bank was in the know, and is still serving a three months' sentence.

There is such a strong flavor of the Melton Bank robbery, of which the recent disclosures are still fresh in memory, that some think there was collusion between some one who knew the combination of the vault and the treasury compartment and outside parties.

ALBERT COLLEGE NOTES.

Interesting Items Picked Up By Reporters.

Several of the gymnasium classes have opened.

Mr. Pritchard, of Owen Sound, is among the latest arrivals.

A mandolin and guitar club will probably be formed this year.

Mr. John Wallwood, a former student, visited the boys this week. He was on his way to attend Queen's University.

Mr. Horace Faulk, B.A., Professor of Mathematics, and Mr. Jasper Doolittle, Professor of Commercial Science, have both proved very able and courteous additions to the staff. The boys have unanimously voted them "square heads."

Mr. J. Frapp, of Stirling, will teach first form languages and history this year. Mr. Aylsworth found it impossible to prosecute his studies and teach at the same time.

Much regret is expressed by the old boys at the death of Mr. Wesley Elliot, one of last year's brightest students. He was preaching in the Northwest when he contracted typhoid fever and died. He frequently consulted the city pulpit while attending college last year. His home was at Owen Sound.

Where are last year's students? Among those who have not returned, Rev. A. W. Coombs is attending Queen's University, Montreal; Mr. Tilton and A. P. Stanley are at Victoria, Toronto; Rev. S. J. Green is in this Conference; Frank Kirby is preaching at Fargo City, Dakota; W. A. Elmes is preaching at Winnipeg; Jas. Waugh and W. Arnold are both in the North West; A. Kline is preaching in Minnesota.

The "College Times" will boom this year. The following will compose the editorial staff: Editor in chief, O. P. Hephson; associate, J. Frapp; religious and missionary, W. J. Hancock; exchange, Miss Buel; personal, Miss Young. Prof. Hall is Chairman of the Editorial Committee and Miss Wilder is Secretary. W. H. Shackel will be business manager.

The Missionary Society has elected the following officers: President, Warren Rothwell; Vice President, A. R. Maunders; Rec. Sec., O. Sweetnam; Cor. Sec., W. G. Hancock; Treas., J. Hinds.

The Sale. The Sale at Mr. Flower's store will continue at least for some days until we have sold the entire line. Some big bargains there and each day find additional goods on the table.—C. B. SCANTLEBURY.

PROHIBITION DEFEATED.

Le Soleil, the Liberal Organ in Quebec, Says that the Majority Against will be 9,123.

Quebec, Oct. 5.—Le Soleil, the Liberal organ in this Province, states that up to the present the majority against prohibition in the Province is 69,476, and that when all returns are received the majority will fully exceed 70,000. Latest returns give majorities against amounting to 72,876, and for amounting to 3,400, leaving the balance above mentioned. Le Soleil estimates that the majority for prohibition in the Province will amount to 70,000, which subtracted from that against in Quebec leaves 9,123, which, says the journal, will be the ultimate majority against prohibition.

A Nice Umbrella.

It is a good thing to know where to get a good umbrella at a very moderate price. The Oak Hall are making a special run on a dandy at \$1.25. They are warranted best, they are light in weight and we give you a nice selection of handles. This is just the season you will require one, and we ask you to kindly keep this line in your memory.

High School Athletics.

The Belleville High School Athletic Association has been formed with the following officers:

Honorary Presidents—H. Corby, M.P., Thos. Ritchie.

Honorary Vice-Presidents—J. L. Biggar, R. K. Taylor.

President—E. F. Milburn.

Secretary—Wm. A. Mathison.

Treasurer—O. M. Babbitt.

Committee of Management—Messrs. Knight, Luton, Clarke, Curry and McGuire.

H. O. McGuire was elected captain of the football club and E. Caverly, E. Hyman, F. Wallbridge, W. Burke and W. Tichborne as the committee.

The third and fourth forms have been challenged by the other forms to a relay foot race to be run on Friday afternoon at 4.30. The race is to start from and finish at the school grounds, the course being over Church St., Victoria Ave., McDonald Ave., Dundas St., William St. and Bridge St.

G. T. R.'s New Rules. THIS ONE SHOULD BE ENFORCED. Every employee of a railroad is more or less at times compelled to ask for leave of absence on account of ill health, which in 90 cases out of a hundred is caused by irregular hours, cold lunches, and constant jolting of the train. If of time and money would be saved if they used Hygienic KOTERMAN'S CURE, and the following KOTERMAN testimonial will bear out the statement.

O. T. R. Brakeman William Walker, Hamilton, Ont., declared under oath that he had "Rattley Koter" for a nervous treatment, was ill, listless, and had lost sleep and appetite, and was unable to do his work. He was completely cured, and by Koter's Cure. He works every day now on the G. T. R., and we will send you a full statement of the case, and of many others, if you will address.

CHARGED THE BARN.

A Broken Wire Causes a Sensation.

Last evening about 6.15 an electric light wire came in contact with a telephone wire which touches the barn on the Russell house property. It burned through the insulation, and immediately the whole barn, which is sheathed with iron, became charged with electricity and began to emit smoke and sparks. Several men who came to the scene, thinking a fire had broken out, touched the barn and were hurled to the ground. One man narrowly escaped falling into the river. The electric light power house was notified in a few minutes, and the current was turned off and the barn at once returned to its normal condition. Those who received shocks felt the effects for several hours, but no serious consequences resulted. It is said that a man attempted to throw water on the barn, and that the moment the water touched the building he received a severe shock in his arm. The telephone system was disorganized by the incident for a few minutes.

Covert Cloth Mackintosh Coats

for Five Dollars

The pleasing features of a rainproof coat are brought out by practical use. Your friends are not likely to borrow it, and, by the way, it is not likely to rob you of its protection. Once a luxury, now a necessity, and the price has done much to make it so. A nice box lined, Covert Cloth Mackintosh in fawn and Oxford grey shades, worn seams, deep velvet collar, will answer for a fall overcoat and the price only five dollars at Quick & Houghton's.

Good Values.

FOR GOD AND HUMANITY.

WHAT A MAN'S WORTH.

Annual Report of the Secretary of the W. C. A.

THE VALUE OF A MAN'S BODY FLUSH PER FOUND.

The following very able and comprehensive report of the work of the W. C. A. during the year, was read by Miss Casswell at the annual meeting of the association, published at the request of the members.

A Farm Hand's Estimate at \$44.33 For Sixteen months. While that of the Governor General's Body is said to be worth \$11,111.10 for the same period.

In presenting this nineteenth annual report of the Women's Christian Association of the United States, we are not only presenting an hymn of thanksgiving for the blessings of the past year, it is also a plea for the future. It is a plea for the future, for the future is a time when the world will be a better place, and when the people of the world will be a more united people.

How much is your body worth to you? If you are a man, your body is worth a great deal more than you think it is. It is worth a great deal more than you think it is, for it is the only thing you have that is of any value.

The Bishop of Harford, in addressing the Harford Diocese Conference on the subject of ritualistic practices, made the following suggestions for avoiding the same: "The natural and salutary way would seem to be the process of a carefully regulated local option; or, words, by requiring the sanction of the people of the parish for any extra use subject to the veto of the Bishop if they contravene the law or doctrine of the church."

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

The principal difference between the South Atlantic and Kingston election trials seems to be that in the first case votes were bought for the Conservative candidate very cheaply, while in Kingston the Liberal candidate was not so lucky.

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

No June days could be more perfect than the days of October this year. No sun could be brighter or more gentle in its warmth, and with the charm of autumn would breathe there comes a little breeze.

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

Special thanks are due to Miss Gordon, our lady superintendent, for undertaking this responsibility in addition to her own arduous duties.

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

Deaths from all causes between May 1 and Sept. 30, inclusive, as reported to the Registrar-General's office up to date (Oct. 3), were:

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

Three great policies that made Canada what it is today are these:

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

The year's expenditure of Hospital and Home fund has been as follows:

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

The Indigent Fund of twelve hundred dollars has been received from the City Council and faithfully distributed among the poor.

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

The extraordinary record, 40.8 miles per hour, made at second trials of the new motor car, built by the Victoria Motor Car Co., is a record that is well known to all.

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

The expenditure has been as follows:

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

The Government officials and employees should have passed a claim by many persons to be highly detrimental to good administration of the Nation's affairs.

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

Good Blood and Sound Muscles. Scott's Emulsion is a blood-making and muscle-strengthening food. It improves the circulation of the blood, and gives the body a healthy, robust appearance.

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

Railway Passes. That Government officials and employees should have passed a claim by many persons to be highly detrimental to good administration of the Nation's affairs.

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

James Osborne recently declares under oath: "My case was pronounced Bright's disease. After giving up professional treatment, I commenced Kootenay Cure. The result was a complete cure, and I am now a healthy man."

The poor laborer who is prone to imagine that his little life is worth nothing, is a man who is not a man. He is a man who is not a man, for he is a man who is not a man, for he is a man who is not a man.

The above named JAMES OSBORNE, present time still enjoying his health, and may you if you will take Kootenay Cure, by bottle, or for \$5.00, from your druggist, or direct from The R. S. RYKMAN MEDICINE CO., LONDON, HAMILTON, CANADA.

We Have Three Eyes.

Recent researches prove that man has three eyes. This rudimentary optic eye, by one of the most noted philosophers of modern times, been looked upon as the seat of the soul. Two eyes cost most people trouble enough without being bothered by a third. We abuse our eyes and have to pay the penalty. If we would add three with a good pair of glasses at the proper time and keep the strain off it would save us lots of trouble.

THE ASHCROFT TRAIL.

Dr. McLaren of Highgate, Ont., Confirms the Story Told of its Terrors.

Victoria, B.C., Oct. 11.—Dr. McLaren, of Highgate, Ont., who spent the last part of the summer in trying to enter the Klondike by the Ashcroft Trail, has returned to Victoria and confirms the startling stories already told as to the terrors of that route.

Dr. McLaren, with 15 other men and three horses, left Ashcroft July 18th, with strong hopes of reaching their destination, (Vancouver), in 30 days. Proceeding by stages to Quenelle, everything was lovely until that point was reached, but no sooner had the settlement been left behind than snow, squalls, mud, and almost impossible bridges and every other obstruction known to the wayfarer of a "bliss" became a life of hell.

The horses were killed for days together up to their chests in mud. The riders had to sit with their legs in a horizontal position with their hands on their knees, and they were obliged to keep their feet up to their chests in mud.

The pack horses would not halt on a swampy bridge, but a forefoot in a crevice of the plank, turn restive and disappear over the side into the ravine, being all possibility of recovery. The giant rocks with their interlocking crevices proved a death trap to many a poor patient equine, and poisonous weeds eaten by the horses for want of food would bring on sickness and death. Provisions ran low, clothing was destroyed by the tangled brush, foot covering became worn and useless against the house and one of the horses against which the men stumbled, and ultimately death stared the party in the face.

Dr. McLaren says the trail, instead of being only 30 days, occupies at the least possible calculation 100, so that a party setting out with supplies sufficient for a month will find themselves having accomplished but one-third of the distance, without food. The trail is fully 1,300 to 1,400 miles long, and is a most dangerous one, as claimed by the "boomers" of the Klondike. The members of the party fear that many have lost their lives in attempting to make the trip.

At one place between the two summits there is a division of the co-called trail, and one fork leads only to death. Away up in the mountains, the trail is so steep and so narrow that the progress of those who had been unfortunate enough to fall out. They can never find a way out. Short of provisions, destitute of clothing, with a chill of winter approaching, their fate, Dr. McLaren says, is sealed.

SMASHED RECORDS.

The Members of the Board of Education should not have reason to boast of their ability to transact business in a short time, for they got through their session in fifteen minutes last evening. These present were Dr. R. Tracy, Chairman, J. L. Diamond, Henry Pringle, J. Lyons, J. J. O'Brien, C. J. Bonnett, H. Walker, F. E. O'Brien, C. J. Bonnett, Wm. Tarrant.

Miss Maud Clapp was asking for the first vacancy on the teaching staff. Mr. M. E. Macaulay, of Lindsay, wrote claiming a salary of \$300.00 per annum for his services as a teacher. Referred to their respective committees.

The Finance Committee's report, recommending the payment of a number of accounts, was adopted without discussion.

On motion of H. Walker, Greenleaf & Son were given the contract for providing supplies for the laboratory at the High School, the cost not to exceed \$35.

Boys' Ulsters and Overcoats.

If you want a boy to look like a gentleman and feel like a king, get him one of Oak Hall's nobby ulsters or overcoats. These lines are selected with a view to make both parents and boy our friends in every way. The boy wants an overcoat that looks right, the parent one that costs right. The combination is guaranteed at our store, with the further certainty assured that the coat will wear right.

A Successful Tea Meeting.

A very successful and enjoyable tea meeting was held in the Centre St. church last evening. In spite of the unpleasant weather the church was packed and the proceeds will amount to about \$37. After an excellent repast had been partaken of a good literary and musical programme was rendered, Mr. J. J. Rice presiding. A gentleman brought a graphophone with him and this afforded a good deal of entertainment. Messrs. Maunders and Brownlee, of Alber College, gave recitations; Miss Nettie Root gave an exhibition of club swinging, accompanied by Miss Julia Thompson, and Miss Nellie Pacey rendered several piano solos.

Gents' Fine Slips.

We have a fine assortment of Men's Fine Slips in Cotton, Velvet and Don King from 75c to \$1.00. —VANMETER & SON.

Don Caesar de Bazan.

The presentation of the well known play "Don Caesar de Bazan" by Paul Casanova and company deserved a better house than it received last evening. Mr. Casanova himself is an actor of great talent and his representation of that strange compound of dogmatism, reality and lofty spirit, the Spanish nobleman, was above criticism. The company too is a good one, the work of Mr. Davies being particularly worthy of commendation. During the play Miss Taylor sang some beautiful solos.

Larger bottles, blacker and softer polish, than any other shoe polish. The Alma Shoe Polish we know of. Endorsed and sold by the well known shoe trade of New York and Boston. Price 25c. Give it a trial. —HARR & LOCKETT.

Burglars at Foxboro.

The little village of Foxboro was visited by burglars last night. The store of Chas. Gardner, Jeweller, was entered and about \$80 worth of stock taken, including a number of watches left there for repairs.

Tired of Life.

Many people take their own lives every year, owing to certain forms of insanity caused by diseased organs; sometimes the stomach, other times the kidneys; and still again the liver. No one who is troubled with any of these ailments should be cured if Hyckman's Kootenay Cure had been used. If you are troubled with Neuritis, sleeplessness, loss of appetite, or any kidney trouble, take Kootenay Cure.

This is a sample of S.W. TESTIMONY.

Neuritis, the best ailment, was cured by Sarah Judge, Crimble P.O., County of Middlesex, to such a degree that she thought she would lose her reason. Physicians did not cure; she grew worse and worse until she began to take Kootenay Cure, and after using eleven bottles was restored to perfect health. Sworn to Aug. 18th, 1896.

We have hundreds of similar S.W. testimonials, which may be had free on application.

Kootenay Cure \$1.00 per bottle, or 6 for \$5.00, from your druggist, or direct. It relieves Dyspepsia and Indigestion in a few days, and cures the worst forms of Neuritis both of the head and stomach.

A Broken Wire.

About five o'clock yesterday afternoon an electric light wire broke on Front St. between the Hotel and the corner of the wire fell across the wire of the street railway. As the wire was burning furiously, there was great excitement around the spot for a time until the authorities were notified and had it repaired.

The Dairy Cow.

Considering the make up of the dairy cow, M. E. Conard, V. M. D., says: "Like begets like; we are made up of secondhand material. Some operators may think of this in the parent, and by environment be brought out in a later generation, the later generation will hold in the same manner. The original cow was constituted to produce sufficient milk to feed her offspring two or three months, then enjoy a long period of rest before producing another calf, the result being good physical constitution. In course of time, man wished to change the natural order, by systematic breeding and feeding, to make milk and butter-production the main point, and this process was occasionally interrupted that the milk might be turned to a puny calf, which in turn was expected to be as good or better than the dam. The pregnant cow will emphasize in offspring the quality most prominent during her time of pregnancy. This in a dairy cow is milk production. Now bred her to a highly productive bull—the result is a calf of unbalanced parts, the physical nature is weakened. If this is followed by generation after generation, there will probably be a breakdown in the constitution, and a predisposition to tuberculosis, or other troubles."

THE GOVERNMENT AND PROHIBITION.

At a special meeting of Frankford L.O.L. the following was unanimously adopted:

Owing to the favorable result of the plebiscite vote, we, as Organ men and especially as members of this Primary Lodge, desire to express publicly that we firmly believe that it is duty of the present Government to pass a prohibitory liquor law, and to affirm that the majority is large enough for action, and more particularly so because all the provinces except one or two gave a majority.

On Oct. 2nd, Rev. J. W. Wilkinson preached a forcible, instructive and powerful sermon to Frankford and Wooler Lodges at Frankford.

"I have had Rheumatism for years, and Nervine is the only remedy that has done me any good." So writes Thomas McElchlan, North Peabham, and his testimony is supported by the wonderfully penetrating and powerful action of Nervine—the great nerve tonic.

Money in Low-Grade Ores.

The Homestake Mining Company, in South Dakota, continues the steady and profitable acquisition of its great deposits of low-grade gold ore. The company's report for the fiscal year ending with June last, shows that for the greater part of the year 400,000 tons of ore were mined, and 3,000,000 lbs. of gold were produced. This number was increased to 540,000 tons of ore. With these there were crushed 548,490 tons of ore, the average yield being 1.12 oz. of gold per ton, the cost per ton being \$4.66 a ton, the mine expense being \$2.17, and the mill cost 77 cents only. The balance of 44 cents being made up by general and office expenses and the purchase of additional property. The profit, \$1.15 a ton was sufficient to pay the \$500,000 debt of the company, and to make the addition of \$187,572 to the company's cash balance. While no statement is made of ore reserve, it is estimated that the company has sufficient for an extended future, and that the addition to the milling capacity was fully warranted.

The report does not give the cost in detail, and some calculation is needed to detail the mining and milling expenses. A statement as full and elaborate as that furnished by the Alaska Trust and Development Company would be of much interest, as permitting a comparison of the work done at these two great mines of low-grade ore. That the Homestake mining expenses are the higher of the two is chiefly due to the natural conditions, which require greater expenditures for building and development work. The low milling cost of 77 cents a ton is very creditable to the management of Superintendent Oiler.

THE CORUNDUM LANDS

Their Extent Is Greater Than Was Supposed—Two Areas Explored in Eastern Ontario.

(Toronto Globe.)

Explorations being carried on by Prof. Miller in Eastern Ontario have shown that the corundum belt is considerably wider and longer than appeared from the explorations of last year. Two areas have been carefully examined this year, a small one in the township of Bury and Methuen in the County of Peterborough, and another extending from Hallowell across Hastings into the County of Renfrew. The Government has decided to bring the whole belt under the provisions of the regulations adopted in July last for the development of corundum lands, and accordingly the mineral rights on considerable additional tracts of land have been withdrawn from sale and placed under the provisions of these regulations.

Under these regulations the Lieutenant-Governor in Council has power to fix and determine the maximum price to be paid for the use of the land in the Dominion. There is also power to require that all corundum lands be leased under the provisions of the regulations and that the lessee be required to make certain processes of treatment or milling at works to be erected in the Province to prepare the sand into a form suitable for use in the manufacture of all useful or commercial products for which the mineral or ore is economically adapted. Where there is a suitable character are given for the erection of works, preference in the selection of mineral lands may be made to the person who will undertake to conduct mining and treating operations on the largest and complete scale, and who can furnish satisfactory evidence that he possesses the requisite capital for the proposed operations.

Caused by a Nail.

A mare, the property of Mr. D. J. Fairfield, has been troubled apparently with a growth on one of her hind feet. To-day Dr. Ackerville was called in and removed from her foot an iron nail about two inches long. It had been in the foot over a week and the pain endured by the poor animal must have been terrible.

Attempted Burglary?

When the clerk in T. Walters' store came down this morning he found the back door open and a piece of iron pipe on the floor and at once concluded that a burglary had been attempted. It turned out, however, that the "burglar" was simply a vigilant police officer who, finding the door open, had placed the bar against the door to keep it shut.

Good Hood and Sound Muscles.

Struck by a Bicyclist.

The Montreal Star says: L. S. Morphy, of the G. T. R., while walking on the Lower Lachine Road Sunday, was run down and injured by Mr. J. Martin, of Dufaux, who, when he was on his way to the damage caused, and a settlement was effected.

To-Morrow's Tournament.

The trap and rifle shooting tournament at Messingway Park to-morrow promises an afternoon of good sport. The visiting clubs will be from Stirling, Wellman's Corners and Picton. The trap shooting will commence at 1 o'clock.

AGREEMENT ACCEPTABLE.

The Sub-Committee's Report Nominally Adopted.

The Sub-Committee presented a draft agreement between Mr. Mitchell and the city for the consideration of the Joint Committee last night. The new agreement embodied the resolutions passed at the previous meetings of the committee. The agreement was read, discussed and adopted by a vote of 10 to 5.

First Class Overcoats.

It is no advertising catch or thoughtless assertion, but a honest fact, that while Oak Hall's new overcoats are equal in material and workmanship to the first class merchant tailor work, the price is about one-half.

Don't accept our statement, use your eyes, rely on your own judgment. We know we get the best material and better prepared to properly overcoat you than any other store or merchant tailor in the city. You'll know it, too, the moment you set eyes on the stylish coats and inquire into our prices.

A Popular Lady Dead.

The many friends of Mrs. N. Fleming of the G.T.R. will sympathize with him in the death of his sister, which took place at Kingston on Tuesday. The News says of her:

The death of Mrs. H. H. Cook, which occurred yesterday at her home on Johnston street, has caused much sorrow among relatives and a large circle of acquaintances.

Deceased was the daughter of the late John Fleming, of Millhaven, and became a resident at the time of her marriage, three years ago. She was a very popular member of the Brock St. Methodist church and during her residence here made many friends. Her death was the result of an operation which she underwent last March.

She leaves a surviving husband and mother, three sisters, Mrs. W. Lee of this city; Mrs. Hinton, Stalla, and Miss Fleming, Millhaven; and a brother—Mr. N. E. Fleming, of Belleville. The funeral will take place on Wednesday afternoon, at 2 o'clock.

Inquest Not Necessary.

INVESTIGATION MAY BE MADE.

Should any doubt exist as to the substantiality of the SWORN statement of James Muir, Grand Trunk Baggage Master at Hamilton, an inquiry may be made by the coroner of the province.

SWORN STATEMENT OF JAMES MUIR.

"I was cured of Lumbago, after 20 years' suffering, by Ryckman's KOOPEY ENAY CURE. At times I could not walk, and for two years could not stand for over 15 minutes at a time. Five medical men treated me without success and had I listened to them I would have become a hopeless invalid. I have now been cured for over a year. I conscientiously consider Kootenay Cure a great remedy for BACK and KIDNEY troubles, and I give a sworn declaration without solicitation."

This testimonial and many others free on application. Write for chart book of sworn evidence.

OAK HALL

Need not be overcoat extravagance, for no matter at what price you buy a coat of us it will be made up in the latest style, every detail is entrusted to careful and competent workmen.

The way a coat is put together has just as much to do with the elegance of its appearance as the fabric of which it is composed.

That is why our overcoats, at whatever price, have a distinctive air about them that ordinary coats do not possess.

You are sure of the best fabrics and workmanship if you buy of us.

Boys' Ulsters.

The boys' long ulster with a high collar is here to stay, a few years ago there was no such coat, but once your boy goes through the cold winter with a good warm ulster, you will never be satisfied to have him wear anything else.

We have a splendid assortment in all the favorite colors at \$3, \$3.50, \$4 and \$5. Every coat warranted all wool. We will not allow shoddy to enter our store if we know it.

Boys' Reefers.

For the little lads to romp and play in, a reefer jacket is probably just as satisfactory as the reefer jacket. We have them in light, medium and heavy weight with storm collar, ordinary and sailor collar, made of frieze, nap, beaver and montie, the prices run \$2, \$2.50, \$3, \$3.50, \$4, and \$5. We carry a beautiful assortment of these garments.

The new overcoat.

The very latest and most fashionable overcoats for men this season will be the montie. They are very neat and rich looking and are having a big run throughout the United States. We have them in black, brown and grey, single breasted, silk velvet collar, fine quilted satin lining and piped construction between lining and cloth. Be sure and inspect these coats.

Men's Ulsters.

We have men's ulsters at from \$5 to \$12, all the different grades and colors, and every one of them is made of all wool frieze. Our \$5 coat beats the world for the money, all the different shades, extra high collar, very long and a magnificent lining. We guarantee this \$5 ulster to knock out anything on the market at \$6, and invite a comparison.

In deciding where you can get the best value, always remember Oak Hall Clothing is of a high character. In spending your money, it is well to bear in mind that it is more important what you get than what you pay. We give you the best value for every dollar you spend with us.

THE FASHODA SITUATION.

Curious Story From Rome—Abyssinians Failed Marched.

New York, Oct. 14.—The New York Herald publishes the following despatch from Rome, under date of October 13:

The Tribune will publish to-morrow a letter from Adeo on the subject of Major Marchand's expedition.

Marchand went to Fashoda expecting to find Frenchmen, or at least Abyssinians there, in accordance with the plan of M. Lelou and M. Bonvallet, and the incorrect reports of Col. Lelou.

On arriving at Fashoda he sent emissaries to Abyssinia by way of Kerin, but received no reply. He then sent a communication to his Government by way of Uagah and the Congo asking for instructions and stating he had occupied this unsatisfactory position because it commanded the route to Fashoda, by which his emissaries were expected to arrive.

Otherwise it would have been more advantageous to have taken a position at the confluence of the Sobat and the Nile.

The correspondent of the Tribune declares this was the plan which has failed and which can no longer be carried out.

Emperor Menelik is doing his utmost to prevent the realization, and the English have cut off the line of supplies. It only remains for Marchand to go down the White Nile to Cairo.

According to the Tribune's correspondent, French influence in Ethiopia has received its final blow.

The Negro is openly playing the game against France.

Those Trading Stamps.

To the Editor of the INTELLIGENCER.

Dear Sir,—Permit me, through the columns of your paper, to draw the attention of your merchants to an article which recently appeared in the Dry Goods Economist, dealing with the system of trading stamps, which system at the present time drawing the attention of some of our Belleville merchants. The Economist says, "As careful readers of this paper are aware none of the efforts to obtain legislation against the trading stamp proved successful, but it would seem that the ventilation, which the trading stamp received by the agitation thus commenced, has secured the complete success of the scheme and the system is now in vogue."

It is interesting to note in this connection that a Trading Stamp Co., of American origin, has been formed in England and has threatened a reputable paper, the Draper's Record, with a suit for slander, because that journal published, for the benefit of its retail subscribers, the true facts of the trading stamp system. The Draper's Record concluded that the stamp system costs the merchant an average of 5 to 10 per cent on a considerable portion of his turnover, and that the result is no appreciable increase in business, and finally, that the system enriches nobody, or very few, besides the ingenious inventors or exploiters.

The career of the trading stamp in Belleville must be a short one, and our merchants may well regard with suspicion any scheme for the spreading of business, the success of which means deception both to the merchant and his customer.

Surely the opinion of two such papers as the Dry Goods Economist and the Draper's Record is worthy of our consideration.

Respectfully yours,

D. V. SINCLAIR.

To Meet the General.

LT. COL. PONTON and Acting Adjt. Capt. McGuinness have been invited, in common with the other commanding officers and adjutants of military districts 3 and 4, to meet Major Hunter on the mesa room of "B" Battery, R.O.A., Kingston, on the 26th inst. at 2:30 p.m.

The General also desires to meet the officers of the battalion collectively, at 4 o'clock on the same afternoon, and at the close of the meeting he will be glad to receive any officer individually who has anything to lay before him.

The Alma Shoe Polish.

Larger bottle blacker and softer polish, more beautiful luster than any other shoe polish we know of. Endorsed and sold by the well known shoe trade of New York and Boston. For sale. Give it a trial.—HAIN & LOCKYER.

Don Cesar de Bazan.

The attendance at the opera house last night was disappointingly small, but those who did brave the terror of the elements were amply repaid by the splendid presentation of Don Cesar de Bazan by the Columbia Stock Company. Mr. Paul Casanova as Don Cesar and Mr. Miyasa Davis as the scheming courier, entered into the spirit of their parts and proved themselves worthy of the high praise of the supporters tendered them by the balance of the company was first-class. It is to be hoped that their efforts to provide clean high-class drama during the week will be rewarded by a bumper house to-night.

The Kennel.

Mr. O. J. Borel received the well known steel-blue Great Dane, "T. B. Reid" this morning from Mr. Geo. Southern, Clerk of the County of Carleton. "T. B. Reid" is registered in the A. K. O. S. B. as 41213, and is a son of the famous Great Dane "Major Hain," who was champion of all the shows in the United States and finally sold for the large sum of \$2,000.

Anniversary Day.

The services at the Holloway St. Church to-morrow are of special interest, it being Annual Thanksgiving Day. Sermons will be preached by Rev. Mr. Leary and Mr. Cressy, of British Columbia. Special music by orchestra and choir.

If you have contrabass, and daily with local friends, but partly to enrich your blood with Hood's Sarsaparilla.

Will He Visit Belleville?

An unconfirmed rumor was current here to-day, that Lord and Lady Aberdeen intended coming to Belleville, when they visit Kingston next week. It is known that the ex-Viceroy has been very anxious to bring his lady to Belleville, to give her an opportunity of enjoying the beauties of the lake which he considers to be the fairest city in the Dominion.

THE NAPANEE ROBBERY.

Some Local Developments in the Case Celebrate.

Government Detective Greer was in the yesterday and visited the Chief of Police and other persons who are still working hard on the bank robbery case. He left last evening on the Madoc train.

It is understood that the Crown authorities are endeavoring to secure the identification of Frank Lefebvre, the Three Rivers suspect, a man who formerly sold organs in this city.

That Mysterious Visit.

The Napanee Beaver gives the following additional particulars of Madame Saurier's visit to her brother: Of course Governor Vanhuysen was much as to the conversation that took place, but it has leaked out that she came to enquire as to the whereabouts of some of her property which she found missing from her apartments when she returned to Manchester. Amongst the things missing was a gold watch and she wished to know whether it was in the house at the time of the arrest and what had become of it and other articles. Mrs. Saurier, coming with her brother in French, but when told it would not be allowed, she talked fluently with him in good English. She arranged her arrival and departure so quickly that many who were acquainted with Mrs. Seymour who was in Napanee about the time of the bank robbery, and who some think may have been Madame Saurier, were unable to get a look at her.

An American Opinion.

To the Editor of the Beaver.

I have heard many prominent residents of the County of Lennox and Addington—men who are eligible to serve as jurors—express their opinion concerning the action of the Crown in applying for a change of venue in the Ponton case; also their opinion of the honorable gentlemen who solemnly swear they do not believe the Crown can obtain a fair and impartial trial of the case in that county, owing to the bias and prejudice of its inhabitants, and the consensus of the opinions so expressed is that all concerned in said application, in their overwhelming zeal to gain or retain the favor of a fair corporation, have gone so far as to offer a wilful and deliberate insult to all the other people of the county, and one which will be remembered.

In conversation with an American lawyer in Kingston a few days ago he said the Crown in making the application is taking what would be considered in the States an anomalous and partial position, a position in which it virtually declares its confidence in or distrust of itself. In a country where the sovereignty of the people is recognized the necessary affidavit would logically allege that the "commonwealth," the "people" or the "State," as the case might be, had no confidence in the people, i.e., itself, and would therefore be absurd and a thing unknown to criminal jurisprudence. He further said he doubts that the law of Canada allows the Crown a change of venue in criminal cases, and he believes the application will be denied.

WORK WELL DONE.

Belleville Contractors Have Done an

Excellent Job in Peterborough.

The Peterborough Examiner of Saturday

says: "To-day the town engineer and Messrs. Dolan and Sheehy are measuring up the

gradual improvement which they have just

completed. Without using the exact

figures they have laid by the con-

tractors on George and Charlotte streets,

54,000 square feet. Of this on George st.

are 2,700 lineal feet of ten foot pavement,

and 1,070 feet of eight foot walk. On Char-

lotte street there have been laid 1,600 line-

al feet of ten-foot pavement. Altogether

there have been put down 5,270 lineal feet

of pavement or within ten feet of a mile.

"The contractors, Messrs. Dolan &

Sheehy, are to be commended upon the

manner in which they have carried out

their contract. Of course it would be in-

advisable to ponder upon the character of

the work done before it is finally accepted

by the corporation, but the pavement is

put down in excellent shape and looks like

a good permanent job. The firm is

also entitled to credit for the speed

with which the work was pushed

forward, and the efforts made to

not inconvenience the public any more

than was absolutely necessary for the

proper performance of the work.

The merchants on George street are very much

pleased with the way the work was done.

They say that they were never less in-

convenienced by any public street work.

It is also a fact that Messrs. Dolan & Sheehy, as there

is every reason to believe, fulfilled the

conditions of the contract with the town as

faithfully and with as much consideration

as they have shown in respect to the citizens

then we have good reason to be pleased

with our pavement contract fulfillment,

and that they have done their work well,

shown by the fact that they must have re-

spected the specifications, because there

was an entire absence of friction or dispute

in regard to the manner in which the pav-

ing work was done.

Messrs. Dolan & Sheehy have evidently

given Belleville a good advertisement in

the excellence of their work. They have

contracted on hand in Brockville, Pic-

ton and Madoc.

MR. HUDSON'S FUNERAL.

The body of a Good Citizen Laid to

Rest with Fitting Ceremony.

Yesterday afternoon a large number of

citizens, as well as many visitors, fre-

quently paid the last tribute to that true

friend and honorable citizen, Mr. Charles

Hudson. The funeral was under Masonic

auspices. Mr. Hudson having been a mem-

ber of the Belleville Lodge, and the three

city lodges were largely represented, as

was also the Orford Lodge S.O.E., of which

he was also a member. Rev. Canon Burke

conducted the beautiful Church of England

burial service at St. Thomas' Church and

Rev. A. L. Green at the grave, after which

Mr. J. Parker Thomas read the Masonic

service in a clear and impressive man-

ner. Among those present were Mr.

Wm. Armstrong, Mr. J. H. Hay, Mr.

Demoreville, Mr. (Dr.) Mather and

Mrs. Campbell, Mrs. J. Allan, Mar-

shall, Mr. and Mrs. John Morton, West

Huntington, Mr. and Mrs. R. L. Simpson,

Edwards. The bearers were Messrs. J.

McKeown, W. McKeown, Henry Pringle,

Walker, Alfred, Donald McLean and Col.

Penton.

Among the many beautiful floral tributes

were: wreaths from Mr. and Mrs. H.

Conry, Mr. Adam Harty, Mr. W. P. C.

Hudson; pillow, The Hamilton Co.; roses

from Mrs. Newton, Mr. and Mrs. A. I.

Mrs. S. R. Gorman, and Miss Welch.

CHURCH CHIMES

Three Distinguished Visitors Occupy

Belleville Pulpits.

By Rev. ST. CHURCH

The pulpit of Bridge St. Church was in

the morning occupied by Rev. A. B.

Chambers, who took as his subject "The

lesson of a life." The sermon was an

eloquent one and most practical in ap-
plication, the leading thought being on the

fact that the fact that so little of the wealth

of the world was in the hands of the people

of God was because they failed to "bargain"

with Him for temporal as well as spiritual

prosperity. In the afternoon Rev. Th. A.

Crosby delivered the Sunday School, being

warmly welcomed by the officers and

scholars. He gave an interesting account

of his first days in the mission field and

the difficulties he encountered in teaching

the Indian children. An interesting fact

in connection with Mr. Crosby's visit to

the city is that his devoted wife is a former

scholar of Bridge St. Sunday School. In

the evening Mr. Crosby occupied the pul-

pit, basing his remarks on the words "For

the dark places of the earth are full of the

habitations of cruelty." We need not go to

China or Japan or India to see the dark

places of the earth to see how heathenism

in all its loathsomeness, for right here in

our own city Dominion we have over 14,000

prisoners of the devil. He gave a vivid pic-

ture of the horrible condition of the Flathead Indians,

who he first went among them 35 years ago,

a prey to all forms of superstition, terrorized

by cruel and bloodthirsty conjurers, ad-

dicted to all forms of vice, women degra-

ded, and the condition of slavery and child

torture. He gave a vivid picture of the

condition of their people. He then told

of the marvelous transformation which has

been wrought in their lives, how their hearts

have been softened, and the condition of

them improved, and what sacrifices they

were now willing to make for the good

of the cause. Mr. Crosby's address was

in many amusing anecdotes in a simple,

unaffected way, which captured the hearts

of his hearers.

Miss Mahal Castleman, of Riverside

Cal., who is the guest of Mrs. J. W. John-

son, sang a solo very sweetly while the

service was being taken.

HOLLOWAY STREET CHURCH.

Large congregations were present at

both services yesterday, it being the An-

niversary Sabbath of the church. The

preacher of the day, Rev. Mr. Lancelotti,

of Kingston, delivered two very eloquent

and practical sermons. In the morning his

theme was "I am come that they might

have life," and in the evening "The growth

of the Kingdom." Many expressed the

hope that Mr. Lancelotti would visit Bel-

leville again. In the afternoon at a crowded

S.S. Service, Rev. Mr. Crosby gave a

Missionary address. The choir for the

day was large, and an orchestra added to

the interest of the service. The music at

both services was very fine. In the morning

the choir sang the anthem "Praise Ye

The Father" with orchestral accompani-

ment. In the evening an anthem "Come

Let Us Worship" was sung, the solo with

a violin obligato being splendidly rendered

by Mr. Frank Y. Branton. The collec-

tions at all the services were large.

THE TABERNACLE.

The annual missionary services were

held at the Tabernacle yesterday. Rev.

Thos. Crosby gave an account of his work

in the morning and in the evening Rev. A.

E. Matthews, of Toronto, preached an in-

spiring sermon. The congregations were

large and the subscriptions liberal.

NOTES.

dered Field's "Hail, Glorious Light" an

RUSSELL-McKEOWN.

A Belleville Young Lady Goes to the Railroad City.

At the residence of Mr. William McKee, Albert St., at 12:30 o'clock today, his eldest daughter, Miss Elsie Jean McKee, was married to Mr. Stanley Saunders Russell, Chief Clerk of the G. T. R., and William Russell, at St. Thomas. Rev. Charles E. McIntyre, Pastor of Bridge St. Church, performed the ceremony in the presence of a number of the friends of the contracting parties, including several from Chicago, Des Moines, Hamilton, Toronto, St. Thomas, Syracuse and other distant points. The bride was assisted by Miss Blanche Hill, and Mr. R. J. Spence of Toronto University, was groomsmen. The bride wore a beautiful travelling dress of national blue tulle, with hat to match, and carried a bouquet of white roses. The bride and groom were given away by Mr. and Mrs. Russell left on their wedding trip to New York, Syracuse, Detroit and other American cities.

The wedding gifts, which included many costly articles of silver and cut glass, were numerous, attesting the warm place which the bride by her many excellencies has won in the hearts of her acquaintances. The groom's present to the bride was a marriage ring of opals and diamonds, and to the bride a ring of opals and diamonds. The bride and groom were given away by Mr. and Mrs. Russell left on their wedding trip to New York, Syracuse, Detroit and other American cities.

BIG HOTEL TRUST
FORMED IN TORONTO.

Queen's, Rossin, Arlington and Walker House to Join Interests.

Self-Preservation is the Object Aimed at—McGraw, Winnick & Co. Will Probably Be the Name of the Firm and the Syndicate Will Be Capitalized at \$500,000.

The respective directors of the four big hotels, the Queen's, the Rossin, the Arlington and probably the Walker, have, according to the press, agreed upon a basis of amalgamation. Colonus like, a big hotel trust is about to be formed and the hoteliers are expected to control the more luxurious travelling clientele. Self-preservation is the keynote of the move, and the hoteliers are expected to control the more luxurious travelling clientele. Self-preservation is the keynote of the move, and the hoteliers are expected to control the more luxurious travelling clientele.

The result has been a series of meetings at the Queen's. The situation has been talked over, and the last conference, held yesterday afternoon, amalgamation was practically decided upon.

The syndicate will be called McGraw, Winnick & Co., and will be capitalized at \$500,000.

A GREAT DAY AT KINGSTON.

Two Important Functions in the Limestone City.

Kingston, Ont., Oct. 19.—The full session of the Queen's University took place yesterday afternoon in the City Hall. Among the guests were Lord and Lady Aberdeen and Sir Wilfrid Laurier, and the Hon. J. G. Macdonald, who presided over the banquet after which the scholarships were distributed. The Hon. J. G. Macdonald, who presided over the banquet after which the scholarships were distributed. COSTLY BLUNDERS.

The following, from the Hamilton Herald, a journal which, under a thin veneer of independence, conceals a warm friendship for the Ontario Government, carries its own comment with it:

"Mr. Harky could have learned the profitable lesson of the Court of Appeal without calling the Legislature to testify in August. When he summoned the Legislature he did not intend to submit the question to the court. But he changed his mind and did submit the question. The August session was therefore unnecessary; it was a blunder.

"The Government, however, put up this defence: The August session would cost the province but very little, for it would be only the beginning of the regular session; the House, when it adjourned on Aug. 24, would stand adjourned until it meets again early next year; it would be just one session, and the members would be entitled to only one session's salary."

"But by the prorogation of the House on Wednesday the Government has lost this defence. The prorogation makes the August session a complete session in itself, and when the House meets again it will begin a new session. For each session the members will be entitled to indemnity."

"Whether or not they will have a right to the full indemnity for the August session is a disputed question. If a sitting lasts for 30 days the members are entitled to the full \$600; if it does not last that long, they get only \$6 a day. Now the sitting lasted only 21 days; but it might be held that inasmuch as the House was not prorogued until Oct. 12, the session really lasted two months and more, and that therefore each member will be entitled to draw full pay."

"It is to be decided that the members should be paid only for the time they were actually in session, the August session would cost the province about \$12,000 in all expenses, besides mileage and other expenses. If it be decided that the members are entitled to full indemnity, it will cost the province about \$60,000 to pay them for their three weeks' work."

"Considering that the August session was unnecessary, it must be admitted that Government vacillation, followed by Government carelessness, has cost this province a pretty penny, even at the lowest estimate."

WELL PUT.

"The official and final statement of the revenue and expenditure of the Dominion Government for the twelve months ending 30th June last has been published," says the *Huntington Gleaner*, organ of the Liberal party of the Eastern Townships in the Province of Quebec, "and has caused the Toronto Globe to editorially declare the result has been a surplus of \$1,575,581, and the cash over \$100,000."

DR. WARD'S

DR. WARD'S BLOOD & NERVE PILLS.

First-to-work and to win to keep a name in a sound mind to a healthy body. Vicious to ward off disease to conquer obstacles to your prosperity.

THIS EVIDENCE IS AMPLE PROOF.

Before using Dr. Ward's Blood and Nerve Pills I felt weak, nervous and run down. I had lost weight steadily for some time; my circulation was poor; hands, feet and limbs were cold. I was a feeble and my muscles trembled. Now, after the use of one box of Dr. Ward's Pills, I feel like my old self. I have gained five pounds in weight and am now in the best of health. My blood is strong and my circulation vigorous. I have more comfort than I have experienced in years. Dr. Ward's Pills have done more for me than any medicine I ever took.

Dr. J. H. Ward, 13 Bright St., Toronto, Ont.

Weston Church, street, Toronto No. 10, was passing at a moderate rate. He walked into the rear end of the car with fast motion and said it was a throw him violently to the ground, and rendered him unconscious.

POLITICAL NOTES.

Dr. Harky, M.P.P. for Durham, Confirmed in His Seat For the Date of the New Election Trials—Advised Charges.

Toronto, Oct. 19.—Dr. John Harky, M.P.P. for Durham, will continue to hold his Parliamentary seat. Both position and contestation were within yesterday.

New Election Trial Dates. The prorogation of the Legislature has necessitated a number of changes in the dates of election trials. The House will be able to go on within the 15 day limit. Election will be disposed of at 11 o'clock on Oct. 27. West-Union to London on Oct. 21; North Bruce at Watford on Oct. 21; and North Hastings has been changed from Oct. 21 to Monday, Nov. 1, same place and hour as before. North and South Grey will both be heard at Owen Sound on Dec. 4.

Further particulars in the North Essex election case were filed yesterday afternoon. Mr. Thomas E. Kilroy, the plaintiff, has added several charges to his previous list. According to his latest allegations, James Waterworth of Walkerville distributed \$20 among the double filia. Mr. H. H. Brannell received a quantity of lumber for voting for Mr. McKee, and other charges of \$1, \$5 and \$10 were added. This last addition brings the number of charges up to 70.

It is stated on reliable authority that Mr. J. H. Harky, M.P.P., will be at an early date to the Ontario Government as Minister without portfolio. This means that he would get the first vacancy in a department.

KILLED BY A TROLLEY.

At Weston, Ontario, Oct. 18.—A trolley car, while passing through the town of Weston, Ontario, struck and killed a man. The man was walking across the street when the trolley car struck him. He was killed instantly.

Dangers of Delay.

If we were allowed to look in the future and see the fatal consequences that follow a neglected cold, how differently would our course be; could we realize our danger, how speedily we would seek a cure, but with many it is only when the malarious disease has fastened its fangs upon the lungs that we awaken to our folly. What follows a neglected cold is the disease of the throat and lungs, bronchitis, asthma, consumption, and many other diseases of like nature. It is worse than madness to neglect a cold, and it is folly not to take prompt action for its removal. The most effective medicine for all diseases of the throat and lungs is Dr. J. D. Kellogg's Vegetable Discovery Syrup. This medicine is composed of several medicinal herbs, which exert a most wonderful influence on the system, and it is the only medicine that cures consumption and other diseases of the lungs and chest. It promotes a free and easy expectoration, soothes irritation and drives the disease from the system.

At Death's Door—Dr. Kellogg's Vegetable Discovery Syrup.

A Great Medical Triumph—Gentlemen, My medical adviser and others told me I could not possibly live when I commenced using Dr. Kellogg's Vegetable Discovery Syrup for Dr. Kellogg's Vegetable Discovery Syrup. My case was one of the worst of its kind. I had been ill for three years and I could not eat and my weight decreased from 150 to 110 lbs. I had looked for fifteen months previous to taking the Vegetable Discovery Syrup. I had tried every new patent medicine and I had used every usual weight, but could get anything with a keen edge. I had been told that I had a "thirty day cure" and I had taken thirty doses of Vegetable Discovery Syrup. I had been told that I had a "thirty day cure" and I had taken thirty doses of Vegetable Discovery Syrup. DANGEROUSLY WOUNDED.

A Boy Shot in the Abdomen—His Wound a Dangerous One.

On Monday morning Angus, son of Mr. Henry Pringle, left on the steam yacht Jessie Forward with his uncle John on a duck hunting expedition to Hay Bay.

This morning he was accidentally shot in the abdomen with a bullet from a small calibre rifle, and as soon as possible the yacht was started for Belleville, arriving early this afternoon. Details could not be learned, but the bullet was lodged in his person.

Dr. Gibson, who had been summoned, met the yacht on arrival and took the patient to the Hospital.

The injured boy, who is the eldest child of Mr. and Mrs. Henry Pringle, and is 14 years old, is a particularly bright and clever youth and is beloved by all who know him. In 1896 he won the Governor-General's medal for the clearest pupil of the Public Schools not over ten years of age.

LATER.

The accident took place on Maskota Bay at one o'clock. Harry Clark, Stanley Pringle and Angus were with the yacht. One of them is reportedly struck the rifle, which went off, with the above result. Angus is now quietly resting in the Hospital. Dr. Gibson will see to the patient and will proceed with the examination at five o'clock.

THE TRENTON MYSTERY.

Mrs. Ireland Returns Broken Hearted to Trenton.

Leaves Word for the Body to be Sent to Her, if Found.

The Montreal Star has the following: Very little, if any, progress has been made since yesterday in solving the Ireland mystery. The doctor, the missing man, the body, and the Trenton friends returned to Trenton by the regular Grand Trunk express last evening. Before leaving the city she instructed Detective O'Keefe to forward the body of her husband, when found, to Trenton for interment. She also gave the detective an inventory of the valuable upon the person of Dr. Ireland at the time of his disappearance. It consisted of a watch and chain, a heavy signet ring, a scarf pin and \$300 in cash. Her husband, she says, was at work in a dark room, and there a machine. In conclusion he was fair.

The impression among Dr. Ireland's personal friends in this city is that the doctor was not killed, but that he is somewhere. Those who know him best say that he was predisposed to heart failure, and they believed, if he had made an error, it was in this disease while attempting to reach the Trenton. If so, then, according to medical experts, his body would have sunk at once into a bit of lead for the bottom of the sea, and this would account for its non-appearance again on the surface.

Mrs. Ireland states that as she saw her husband alive, she refused to believe that he had been killed. She said that she was with him when he was last seen, and that she was with him when he was last seen, and that she was with him when he was last seen.

There he met two men, to one of whom she gave, as she supposed, a dollar bill with the request that he would find a policeman. On her return from the search she found that she had given the man \$5 instead of \$1. When asked by Detective O'Keefe why she had not appealed for assistance to the men whom she saw working on the Trenton, she replied that she did not do so because she thought they would think she was drunk. She also made an error, she said, in explaining this somewhat queer remark by stating that shortly after she saw her husband disappear over the edge of the wharf she was seized with a sudden sickness. While this continued, she did not care to approach the men on the wharf, as she believed, if she did so, they would think she had been drinking.

An extraordinary feature in connection with the case is that nothing definite is known with regard to the intentions of the missing man. His wife claims that he intended going to England. One of his personal friends says he was led to believe that the doctor was meditating a trip to South Africa. Another says that he was on his way to the Old Country to assume a partnership in his own business. Mr. W. H. Ireland, however, indicated that his nephew intended entering one of the hospitals in this city for the purpose of undergoing an operation on his hip, which was injured by a fall from the stairs in South Africa. No one seems to know just what the missing man intended doing, but the presence of a large number of trunks at the St. Lawrence Hotel, and the fact that the doctor was about to depart on an extensive trip abroad.

Dr. Ireland had, it is said, \$5,000 insurance policy on his life. He was also the owner of considerable property in South Africa, the value of which has been considerably increased in recent years by the rise in the value of the gold mine.

It is said that the doctor tried to dispose of this property while in England this year. He received it as a gift from the Charter Company, and he said that he was going to sell it to a railway in South Africa. He said that he was going to sell it to a railway in South Africa.

SENT IT TO THE COUNCIL.

Joint Committee Endorse the Second Agreement.

Mr. Mitchell Would not Incorporate the Agreement With the Abbotts in the Agreement With the City—But Will Give a Bond to Bring Them Here in Case Both Parties Carry out Their Agreements With Him.

When the meeting of the Joint Rolling Mills Committee was called to order at nine o'clock last evening there were present: Ald. Bogart, Chairman; J. Parker Thomas, Secretary; Mayor Johnson, Ald. La Roche, Ald. Davis, Ald. Hangerford, Ald. Wallace, G. S. Tickle, J. G. Frost, C. F. Smith, C. M. Reid, W. W. Pope, Ald. McFee, W. H. Jordan, Henry Pringle, Walter Alford, C. H. Vermilyea, Thomas Hanley, U. E. Thompson and D. V. Sinclair. Other citizens present were Ald. Chisholm, Jas. Cummins, R. W. Adams, Jas. O'Brien, and T. Blackburn.

The Mayor announced that Mr. Mitchell had returned from Montreal, having entered into an agreement with the Abbotts for the amalgamation of the Thames Iron Works and the Metropolitan Rolling Mills. He had reason to feel confident of the good faith both of Mr. Mitchell and the Abbotts.

He read a letter from Mr. Mitchell addressed to him, in which the city was informed that he had accepted the terms of the above amalgamation, and stating that as soon as the by-law and agreement had been passed the combined plants would be moved to Belleville and would be erected and equipped concurrently. These works would include a merchant bar iron mill, a sheet mill, a nail factory, and a spike and horse shoe factory and they would employ from 100 to 150 men.

Mr. Mitchell's letter was read, and the Mayor said that he was very glad to hear that the agreement had been made, and that he was very glad to hear that the agreement had been made, and that he was very glad to hear that the agreement had been made.

The following is a copy of the letter read by the Mayor:

J. W. Johnson, Esq., Mayor, Belleville, Ont.

Dear Sir,—Having recently returned from Montreal, I wish to formally place before you and the joint committee the agreement which I have made with the Abbotts for the amalgamation of the Thames Iron Works and the Metropolitan Rolling Mills.

I have definitely completed an amalgamation between the Thames Iron Works, Northwick, and the Abbotts & Co.'s iron concern of Montreal, (known as the Metropolitan Rolling Mills) and, upon the passage of the by-law and agreement as formulated by the joint committee and myself, these plants will be combined and brought to the City of Belleville.

The plant thus established will comprise a merchant bar iron mill, a sheet mill, a nail factory and factories for the manufacture of spikes and horse shoes. These buildings will be erected and equipped concurrently.

The above machinery when in operation will have a combined capacity of employing one hundred to one hundred and fifty men.

Yours very truly,

(Signed) FRANK A. MITCHELL.

Mr. Tickle asked if the agreement between Mitchell and the Abbotts would be embodied in the by-law to be submitted to the people.

Mayor Johnson said that Mr. Mitchell had declined to make any changes in the agreement. He himself thought it would be well to have the by-law incorporated in the agreement as a rider under seal. He reiterated his confidence in Mr. Mitchell, but would like to see something definite incorporated in the agreement.

Mr. Tickle said such an incorporation would make the by-law more acceptable to the people. He was willing to help the project along in any way possible.

Ald. Hangerford explained that Mr. Mitchell went to Montreal to enter into an agreement with the Abbotts, armed with the consent of the City Council, and that the agreement was made with the City Council.

Mr. Mitchell said that he was very glad to hear that the agreement had been made, and that he was very glad to hear that the agreement had been made, and that he was very glad to hear that the agreement had been made.

THE CALM BEFORE THE STORM

The Internal Affairs of France Are Causing Anxiety.

The Republic divided against itself. The Republic divided against itself. The Republic divided against itself.

Paris, Oct. 24.—The absolute calm of the past week is thought by pessimists to be that which precedes the storm. On Tuesday Parliament will meet under circumstances which, for more than a generation, are without parallel. France is awfully divided against herself by the violence and vituperation of both the opponents and the partisans of revision. When Frenchmen quarrel among themselves they show no mercy. They are not divided by the violence of the civil war, but by the violence of the civil war.

THE JURY'S VERDICT

The Marcell Children Were Strangled by Their Mother, Who Was a Troublesome Woman.

Toronto, Oct. 24.—We find that at No. 333 Logan avenue, in the city of Toronto, on the 21st day of October, between the hours of 3 and 6 o'clock p.m., the said children, Stanley, Harold and Ethel Burrell, came to their deaths, each being strangled by their mother, Isabella Burrell.

FIRST READING CARRIED.

Council Approve the New Agreement.

Synopsis of the Mitchell Agreement--

Carpet-By-Law to Come up Wednesday Night--The Waterworks.

Last night's meeting of the City Council was attended by all the members at present in the city.

Mayor Johnson, Aldermen Petty, Lennox, Harris, Naylor, Chisholm, Denham, Finnegan, Wallace, Pantar, Grills, Doyle, Clarke, Falkner, Bogart, Hungerford, Ashby, Lafoche and Laidlaw.

Ald. Bogart, seconded by Ald. Wallace, moved the adoption of the clause of the report of the Executive recommending the passing of the Mitchell by-law. Ald. Bogart recited the progress of the negotiations since the public meeting and called particular attention to the fact that the new agreement had been drawn up by Mr. John Bell Q. O., as a citizen, free of charge.

The new agreement was read from the report of the Council of the Montreal works as well as the ruling mills, and in view of the fact he believed the people would support it almost unanimously. The vital importance of securing industries was dwelt upon and it was pointed out that reduction in assessments was raising the taxes a great deal more than the granting of \$80,000 would. He moved the first reading of the by-law.

Council went into committee of the whole, Ald. Chisholm in the chair.

The agreement and by-law were first read in toto and then discussed clause by clause.

Following are the chief points of the agreement with Frank A. Mitchell, contractor:

1. Union of the Mitchell and Ashby contracts to be consummated as soon as possible.

2. Company to commence erection of works and plant as soon as site is provided by the City.

3. Plant to be such as is required in a first-class rolling mill and iron works, and Company to fully operate works at their own expense.

4. City to provide site.

5. City to pay \$15,000 on completion of works.

6. Contractor agrees that Company operates works nine months of the year, so far as practicable, for first ten years.

7. Works to begin within three months after passing of by-law and in running order within twelve months.

8. City to pay \$5,000 each year, if contract is satisfactorily carried out, until \$50,000 has been paid.

9. If contract not carried out by works being partly closed, right to further payments to be forfeited and in case works permanently closed, \$15,000 to be refunded before works can be removed.

10. City to submit by-law, authorizing issues of debentures for \$50,000; to pay for site and duties on it, not to exceed \$5,000, making \$55,000 in all; and to exempt plant and works from municipal taxation.

11. At end of seven years, if works not operated according to contract, Contractor to repay \$15,000.

12. City to place two hydrants near works.

13. Works to be used for manufacture of iron and steel and other goods, as contemplated by agreement.

14. Contractor to keep works insured during whole term in the name of the City and for their benefit.

15. City to pay not more than \$3,000 duty on machinery.

16. Contractor to have free use of ferry slip for five years, with right of renewal for five years more at a rental of \$1,000.

17. \$30,000 debentures to be deposited with the City as security for the work to be paid to the new Company in accordance with provisions of by-law; interest accruing to be paid together with principal.

18. As to submission of by-law.

19. City to pass same forthwith, if approved by electors.

20. Contractor to supply fully equipped, skill and ability to keep works running.

21. Agreement to apply to new Company.

22. Contractor shall, within ten days after execution of contract, deposit certified cheque or deposit receipt for \$5,000 to reimburse the City in case, after passage of by-law, he fails to carry out his agreement.

23. Delay or stoppage caused by strikes or accidents not to be regarded as a violation of the agreement.

In reply to Ald. Grills, Ald. Hungerford said the buildings were to be of brick with stone foundation.

Ald. Doyle objected to the absence of any specific reference to the value.

Mayor Johnson said the Executive had seen a plan of the proposed buildings and they would require more land than the city was giving and the Company would have to buy more.

Ald. Hungerford said that Mr. Mitchell had stated to the Executive that they would cost from \$20,000 to \$22,000.

Ald. Chisholm supported Ald. Doyle in his objection.

Ald. Falkner informed the Council at this point that he had been in Montreal for the past four days and had seen the works. The last words of the Manager to him were to hunt up a house for him, as he expected soon to be in Belleville.

Ald. Grills expressed himself as satisfied with the answer to his enquiry, and the clause passed.

When Clause 9 was reached, Ald. Doyle moved that it be amended by the addition of "that 100 men at least be employed during 9 months of the year during the 10 years." This was a most important point. The number of men was not specified in the agreement and it was a great omission, but the people want to know and he was positive about it.

The Mayor referred to the fact that the agreement was drawn up by Mr. John Bell Q. O., admittedly the greatest contractor in the city.

He had refused an offer from Mr. Mitchell to act as his selector, but had decided to act as a private citizen without fee from either side, and this agreement was the result.

Mr. Mitchell was bound in every possible way. By the City Company was bound to run the works to their "fullest capacity" and they could not be run without men, at least, 125 men. He again referred to the fact that he was getting what Kingston offered \$50,000 for, and what Belleville offered \$50,000 for, together for \$50,000.

After Ald. Grills had expressed his satisfaction with the clause it was adopted.

Ald. Doyle raised another objection in regard to the payment of the instalments. First the Company were to receive bank interest on the instalments from the time of deposit and second, the money was to be paid within six days if no objection was made; that the money was to be paid by the City.

The Mayor pointed out that the manager of the bank had to notify the city next and if the money was not paid by the City they had six days to object.

On motion of Ald. Bogart and Ald. Wallace the Mayor was authorized to sign the agreement and the City Mayor was instructed to affix the corporate seal.

"Now I think we should sign the document," remarked Ald. Bogart.

The by-law was then read fixing November 28th as the date that the carpet lay-off, if passed on Wednesday night, could be advertised and submitted on a day.

Ald. Wallace moved that the vote take place on November 28th, so that the carpet lay-off, if passed on Wednesday night, could be advertised and submitted on a day.

Ald. Bogart said that the City Solicitor had stated that the Mitchell by-law need not be advertised until Saturday next and if the carried by-law was passed Wednesday night they could be voted on together if the Council so desired.

After most of the members had expressed themselves in favor of having one polling day, the amendment was lost.

The City Clerk was instructed to make the best arrangement possible in regard to printing the by-law.

Communications were read from Mr. St. George, engineer for Montreal city, and Mr. Russ, engineer for the city of Toronto, offering to make a report for \$50 per day and expenses.

The Executive recommended the acceptance of their offer, which was adopted after discussion.

The gentlemen are engaged jointly by the City and the Company, each to pay half the expense, to make a report as to the value of the works. Neither of the parties are bound to accept the report, but in order to avoid the expense of arbitration it is probable they will abide by the finding of these experts.

ASSISTANCE WANTED.

Mr. H. Cammish, of the Ashley Carriage Company, wrote asking for a loan of \$15,000 at a low rate of interest and exemption from taxation to enable him to start his business.

Dickson & Co. wrote asking for exemption from taxation to give them a chance to extend the business of their new company.

Mr. G. S. Taylor, who had addressed the Council, giving a strong presentation of their case. He showed how his firm had prospered from the time the N. P. was put into effect until 1890, when his illness and the failure of firms who owed him carried his firm down. They then employed 53 hands, now they employ 10.

A great wave of prosperity was sweeping over the country and they wished to be in the swim. They had been offered bonuses to leave.

Both communications were referred to the Executive.

MOTIONS AND NOTICES.

Ald. Denmark moved that the thanks of the City Council be tendered to Mr. J. Walker, who had been invited to visit his laboratory last Monday evening and for the attention he had shown them.

After the Mayor had graciously complimented Mr. Walker upon his scientific knowledge and the efficiency of his office, the motion passed unanimously.

Ald. Pantar gave notice that at next meeting he would move to repeal the present by-law appointing a city inspector.

THE CARPET COMPANY.

Ald. Bogart moved that the Council adjourn until Wednesday evening next, when a by-law to house the Carpet Company will be introduced.—Carried.

At the close of the regular session an informal meeting was held, wherein the agreement with the Carpet Company was read to the members.

Boys' Trashy Suits.

The question is "Does it pay to buy your boy shoddy suit?"

My answer is:—No. "Supposing you buy your little boy a \$1.00 suit that lasts a month, he will have a better suit than he has, and you will have saved \$2.50 and have got something that would have lasted probably a year or more! Think it over, the Oak Hall sell the good suits.

Boy Run Down.

Stanley Lewis Newton, the nine year old son of Chief Newton, was run into by a tandem bicycle yesterday afternoon while watching the road race.

The little fellow was thrown to the ground and rendered unconscious. He was taken to the hospital and is better this morning. He is badly bruised, but no serious consequences will result. Chief Newton desires to thank those who so kindly attended to the boy's injuries before he arrived on the scene. Henceforward no bicycle races will be allowed within the city limits.

MARK LAZIER'S ARREST.

What Will Be Done With the Famous Sharper?

As stated in these columns, Mark Lazier, the famous confidence man, formerly of this city, was arrested yesterday afternoon on suspicion of being the man wanted in London for the grand larceny. The following is a copy of the card which led to his arrest:

\$10000 REWARD.

Will be paid for the arrest, detention and delivery of G. C. Harmon alias G. H. Lammont. This man is wanted for grand larceny, and traveling and various assumed names and false pretenses. He is now in the city of New York, and is known by the name of Mark Lazier. He is a light complexion, is a bright, keen, intelligent fellow. This picture was taken some time ago. He now wears his hair neatly parted in the middle, and is well dressed. When last seen he had a short light mustache and wore a light grey suit, with short sack coat light tan shoes. The signatures under the picture are for the purpose of being used of and railroad men. Please advise me of any information regarding his whereabouts since the 1st inst. Wire any information to Sheriff, Little Valley, N. Y.

When Chief Newton found that Mark Lazier was in the city yesterday, he wired the New York City Police and received a message in reply to arrest him, which was done. Sheriff Hazard was then wired again to send him to the morning to the office that he had sent a man to identify the prisoner.

Mark admitted that the photo on the card was his, but said that it was one that Chief McKinnon had stolen from him 13 years ago and sent to the Rogers' Gallery in New York. He said that he wanted him at Little Valley for long enough. "I'll fight extradition," he added, "for I'll ever get back there. I'll fight extradition."

Mark E. Quin Porter as counsel and will fight to the last. The deputy from Little Valley is expected this morning, meanwhile Mark remains in the county goal.

MORE ELECTION CHARGES.

Nipissing and Muskoka. See their Quota. Henry Miller, Justice, makes charges.

Toronto, Oct. 25.—Several documents bearing on election cases were filed yesterday by Justice Grant of the Court of Appeal. Henry Miller, Conservative member-elect for South Huron, filed a deposition with regard to his failure to attend for examination, for which a motion to commit him for contempt of court had been made out. There was also a motion made in aid of a writ of habeas corpus for the petitioner's Toronto agent, Messrs. G. Grant and W. C. Hamilton, who had been arrested and were guilty of a fraud in doing so. Mr. Miller, therefore, petitioned that he be released from the custody of the sheriff, and that the costs of the proceedings, his petition in the main is to stay all proceedings on the motion.

More Nipissing Charges.

No fewer than four voluminous depositions were made to court yesterday on the Nipissing election case. The petitioner, Mr. William Hewitt, makes 144 charges in all. There was also a motion made in aid of a writ of habeas corpus for the petitioner's Toronto agent, Messrs. G. Grant and W. C. Hamilton, who had been arrested and were guilty of a fraud in doing so. Mr. Miller, therefore, petitioned that he be released from the custody of the sheriff, and that the costs of the proceedings, his petition in the main is to stay all proceedings on the motion.

The respondent, Mr. J. H. Laughlin, replies with counter charges of the usual sort. Bailiffs, force, use of teams, persecution of voters, treating and money bribes are on the list. Mr. J. H. Laughlin, he says, got a loan of \$50 for being chairman of a political committee. He says he was paid \$100 for being chairman of a political committee. He says he was paid \$100 for being chairman of a political committee.

Added particulars in the Muskoka petition are also to be heard. With Samuel Bridgland as respondent and G. E. Langford as the petitioner. Meat, drink and refreshment to farmers, free medical treatment, travelling expenses, the erection of timber dunnage, offers of employment, the intimidation of voters go to swell the number of charges.

North Toronto Case.

Kerr, Macdonald & Company, on behalf of the Liberal petitioners, H. Sumner in the North Toronto election case, moved for a commission to examine Mr. W. McKee, Mr. Martin's election agent. Messrs. W. D. Macdonald, Mr. McKee, and Mr. Martin were present. Mr. McKee, who had been arrested, was present. Mr. McKee, who had been arrested, was present.

Denies Drugged Liquor.

The examination of Dr. Willoughby, and of John Douglas, who were called in East Northumberland, were filed yesterday. Dr. Willoughby denies to the charges of drugging liquor, and of treating voters. A man apparently suffering from drugged liquor, or something of the sort, was in the court room on election night, and he testified for the defence, but there is absolutely nothing to justify the charge preferred.

WEST VIOLET PROTEST.

The case opened at Lindsay, but nothing important developed.

Lindsay, Ont., Oct. 25.—The election protest trial of West Violette commenced yesterday afternoon at the court of Judge Macdonald and Mr. Justice Grant. The petitioner is Mr. P. O. Kelly and Mr. Fox is the respondent.

The court room was crowded, and much interest was manifested. There are 48 charges made against the respondent and his agents. A preliminary question as to the status of the petition was raised by Mr. Kelly. It was contended that the petition was paid for by the respondent, and that the respondent was not a party to the petition. The court overruled the objection. A number of witnesses were called and examined, but nothing of a serious nature was brought out.

THE FRENCH WILL GET OUT.

Latest News About the European War Cloud.

Both Countries Still Preparing for Possible Conflict. A possible French Page says a War Between Britain and France Would End Like the Spanish-American War, With France Expelling Spain's Forces From Cuba.

London, Oct. 25.—The French Ambassador at London, M. de Cassat, has just arrived here from Paris to-night, and there is good authority for the statement that he is the bearer of a proposition to the Marquis of Salisbury, which may satisfy both countries. The British Government will issue an official statement to the effect that the Marquis of Salisbury, who has just arrived here from Paris, has just arrived here from Paris, and there is good authority for the statement that he is the bearer of a proposition to the Marquis of Salisbury, which may satisfy both countries.

It is generally stated that the Marquis de Salisbury has just arrived here from Paris, and there is good authority for the statement that he is the bearer of a proposition to the Marquis of Salisbury, which may satisfy both countries.

A SHORT OUTLINE OF THE FACTS WHICH WOULD BE IN THE MIND OF THE READER.

France Will Get Out.

London, Oct. 25.—The Paris correspondent of the Daily Chronicle states that there is authority to say that a decision has already been taken by the French Government to evacuate France, and that M. Delcasse, the French Foreign Minister, will be the first to facilitate a peaceful solution.

MONTREAL IS EXCITED.

Because of Rumored Charters of Steamships by the British.

Montreal, Oct. 25.—A well known citizen said yesterday that he had seen a telegram to Great Britain, that the British Admiralty had chartered the entire fleet of the Canadian Company, and that similar action would be taken by the British Government regarding other, or, of course, in anticipation of trouble with the French Republic.

Activity at Halifax.

Halifax, N. S., Oct. 25.—An Admiral Fisher, commander of the British squadron stationed in the North Atlantic, has received from London a significant order to collect his vessels, which are now scattered.

English Officers Ordered Home.

Chicago, Oct. 25.—"All officers of the English army and all about leave in this country have been ordered to return to their homes." This state was made yesterday in this city by Major James H. Graham of Her Majesty's Yeoman Cavalry. The order, which had just arrived, he said, could have been one of the most important, and it was not intended to allow any nation to anticipate it in preparation for war. Major Graham thinks war with France is almost certain.

CRUELTY CHARGED.

The Spaniards Claim That the United States is Inconsiderate.

Madrid, Oct. 25.—The Imperial yesterday said: No visitor ever treated the Spaniards as the United States is treating them. The Government has received a grave despatch from Porto Rico, announcing that the American General there is acting towards the Spaniards as the Spaniards have treated Cuba. He ordered a Spanish steamer to embark the remainder of all Spanish troops at Porto Rico, in spite of the protests of her captain, who had ordered to go to Havana to avoid the risk of being captured. The Spaniards will probably protest against such action. Later in the day it became known that the Minister of War, General Canales, had resigned.

Spaniards Are All Gone.

Washington, Oct. 25.—The War Department yesterday received the following telegram from the Secretary of the Navy: Recraution Porto Rico completed by sailing of last detachment of Spanish troops to-day. (Signed) Soley.

"MADE AWAY WITH."

The Sick Emperor of China Did Not Suffer Long.

Shanghai, Oct. 25.—It is reported here among official circles that the Emperor of China was "made away with" yesterday.

NEW TROUBLE IN CHINA.

Chinese Soldiers Attacked an English Engineering Party.

London, Oct. 25.—The Pekin correspondent of the Daily Telegraph says: Chinese soldiers attacked a party of English engineers on the railway near Marco Polo bridge on the Pekin-Hankow line. Two engineers were injured and a railway engine was killed. The situation there is serious.

Ausultate Are After Him.

Haifa, Palestine, Oct. 25.—The police made an important arrest yesterday. Extraordinary investigations are being taken to insure the safety of Emperor William and Empress Augusta Victoria.

Italian "Reds" Arrested.

Alexandria, Oct. 25.—An Italian anarchist was arrested here yesterday. He was a passenger on a steamer bound for Palestine.

Shot at the Robbers.

Simco, Ont., Oct. 25.—An unsuccessful attempt was made yesterday about 3 o'clock a.m. to burglarize the post office here. An attempt was made to break in through a window at the rear of the building. One of the party climbed upon a shelf, and another was looking around at the same time saying "All right." Immediately the watchman commenced shouting very loudly, and the burglars fled very hurriedly without any spoil.

Shot Himself in the Ear.

Gannagone, Ont., Oct. 25.—Joseph Infante, who recently returned from the Yukon, and bought the boat and engine business of J. E. Lewis, tried to end his life last evening about 8 o'clock with a revolver. The bullet entered the ear, passed through the base of the brain and lodged in the jaw bone. He had been suffering from some weak point through business troubles.

THE STOLEN INQUEST.

The Coroner's Jury Makes a Recommendation in Its Verdict.

Toronto, Oct. 25.—Coroner Spencer ordered the inquest last night at Millbrook, Ontario, to be held at the coroner's undertaking establishment, in the fact surrounding the death of the young Charles W. Starn of Walkerton, who was fatally injured at Walkerton, Ontario, last evening, after 40 minutes deliberation the jury returned the following verdict:

"We find that deceased came to his death on Oct. 18, 1898, by collision with street car No. 462. The jury further say that no blame can be attached to the motorman, and they recommended that the city pass a bylaw requiring all cars to have their lights on at all times, and every through crossing."

Left Prostrate.

Weak and Run Down, With Heart and Kidneys in Bad Condition—Restored by Hood's Sarsaparilla.

"I was very much run down, having been sick for several months. I had been trying different remedies which did me no good. I would have several spells of vomiting that would leave me prostrate. I was told that my liver was affected, and my heart and kidneys were in a bad condition. In fact, it seemed as though I was going to die. I was advised to try Hood's Sarsaparilla. I procured a bottle and began taking it. Before I was half gone I felt that it was helping me. I continued it and it has made me a new woman. I cannot praise it too highly. Mrs. SUMMERS, 217 Galloway Avenue, Toronto, Ont. (Only Sold by Hood's Sarsaparilla.)"

OAK HALL

Respects Neither Age nor Condition.

The rich and the poor alike are victims of his "keen and nipping air"—unless protected by one of our Great Storm Coats.

They are made especially for us and constructed to withstand the roughest weather and bitterest cold. No man's wardrobe is complete without one. So inexpensive, so stylish and so well made, that the ordinary, economical dresser can possess one. For instance—

We offer you a genuine all wool frieze ulster, colors black, claret and grey, high collar, extra length, well lined and a good looking garment for only \$5.00.

Then we have a still better coat in black and claret, lined throughout with corduroy, a boon to the man who cannot afford a fur coat, very warm and durable, for only \$7.00.

Extra fine frieze storm coat, plain grey, lined with best farmers' satin, piped inside seams, a very handsome coat, for only \$8.00.

The best imported frieze storm coats, with or without corduroy lining, extra well finished. Just such coats as brought \$15 a few years ago, now we sell them for only \$10.00.

Better clothing for fall and winter than ever, and at lower prices than ever, and this too, in the face of very decided advances in the cost of all kinds of materials and labor. The forced demand for very cheap clothing is being met in many quarters by garments almost worthless. A week or two of active service and the garments lose their entire shape. We don't sell that kind. Just compare our suits with others offered at the same price. That's all we ask.

A very fine imported English tweed, smooth finish, looks like a fine worsted and much heavier. This is a suit for "dress up" and suitable for any man. We give you sack, double-breasted and out-away coat. These suits are offering at the very low price of \$8.00.

A double breasted nice brown frieze suit in all sizes, 36 to 44, cloth pure wool, linings the best and all for \$7.00.

A very fine black frieze suit, double-breasted, coat, extra fine farmers' satin linings. For \$8.00.

A very heavy grey frieze suit, pants and vest regular, coat made with high ulster collar, all lined with genuine English corduroy and interlined with fibre chamois. This suit would be cheap for \$10. Our price only \$8.00.

Dangers or Delays.

If we were allowed to look in the future and see the full consequences that follow a neglected cold, how differently would our minds be affected. We could see danger, how quickly we would seek a cure, but with many a cold we have neglected it, and have suffered the consequences. It is not a disease of the throat and lungs, but a disease of the system. It is a disease that is not only a danger to the individual, but a danger to the community. It is a disease that is not only a danger to the individual, but a danger to the community. It is a disease that is not only a danger to the individual, but a danger to the community.

At Death a Door—Dyspepsia Consumed—A Great Medical Triumph—Gentleness—My medical adviser and others told me I could not possibly live, unless I consumed, to use Northrup & Lyman's Vegetable Dye for Dyspepsia. My case was one of the worst of the kind. For three years I could not eat and my weight dropped from 210 to 110 lbs. As the doctor took for me ten months previous to taking the Vegetable Dye, I was told that I was not to be entirely cured and have regained my weight, and feel like a new man. I have sold thirty dozen Vegetable Dye since it came out. I am a happy man, and people in this section know how low I was, and I thought I could not be cured. LAZIER TO BE FREELAND ON BAIL.

The Examination Will Take Place on November 7th, Meanwhile He Will Have His Freedom.

Judge Frazer took this morning, at the request of the County Crown Attorney, the examination of the prisoner, Lazier, on the day on which he will have the application for the extradition of Mark Lazier, charged with grand larceny at the residence of W. Y. in the morning the evidence will be prepared.

Application for bail was then made by E. G. Porter, counsel for the prisoner. It would be a hardship, he said, to keep him in prison for all that time on a simple charge of larceny. Crown Attorney Anderson held that the case was not a simple one, and that the prisoner should be kept in custody until the case was heard.

Mr. Porter protested against the fact that on the warrant upon which Lazier was arrested no specific offence was stated. He simply read "charged with larceny." This was not fair to the defense.

Col. Hendrick, U. S. Consul, informed the court that he had received a telegram from the Sheriff at Little Valley that he had two or three charges against Mark and that he could be here this evening, if necessary.

Those present at the hearing were: Col. Hendrick, U. S. Consul; Chief Newton, Private Detective McKinnon, Deputy Sheriff Gules and the members of the press.

THE PROVISIONAL SCHOOL.

Major General Hutton favorable to the Project.
Lt.-Col. Ponton of the XV. Battalion and several of the other officers met Major General Hutton by invitation in Kingston on Wednesday. They were all much delighted with the enthusiasm, combined with practical knowledge, manifested by the new Commander in Chief, and they believe that under such a new and improved efficiency will dawn upon the Canadian militia. The opportunity was seized to lay before him the scheme of establishing a provisional school at Belleville. Five regiments declared that this would be the most favorable location for the school, the only question being the exact location.

It was decided that the school should be held in the barracks by the local authorities. A report is to be prepared and forwarded to General Hutton, and it is pretty certain that if the school is established it will not be long before it will be at Belleville. With the information before him, General Hutton declared himself to be favorable to the project.

Brotherhood of St. Andrew.
A very successful and interesting convention of the Bay of Quinte District of the Brotherhood of St. Andrew was held in the church of St. Mary Magdalene at Naperville, Ontario.

The Dean of Ontario, Rural Dean Fornori, Rev. Prof. Woodruff, R.M.O., Kingston, and Rev. F. D. Woodcock took an active part in the proceedings. Judge Soudersbury, Vice-President of the Brotherhood in Canada, delivered an excellent address on the relation of the Brotherhood to the Church from the standpoint of the laity. A general discussion, in which five-minute addresses from the floor of the house were permitted, proved highly enjoyable and profitable feature. The evening session was open to the public generally, and there was a large crowd in attendance.

Prof. Woodruff, R.M.O., Kingston, and Rev. F. D. Woodcock, delivered addresses. The question drawn was conducted by T. R. Clogher. The convention proved such a gratifying success that it will no doubt be made an annual affair.

Among the many clerical and lay delegates present were Rev. Rural Dean Bogert, Rev. A. L. Geon and Mr. W. H. Davis, of this city.

SMALLPOX AT ROCHESTER.

Another Case at the House Where Miss Carrie Johnson Boarded.

A despatch from Rochester says: The discovery of the smallpox case on the steamer North King, and the measures of T. F. H. Bygo, of Toronto, in sending Dr. H. H. Field, of Goshaw, to Rochester to report, have resulted in the discovery of another case at the house where Carrie Johnson has been employed at the Kronin house, a chambermaid, lived with Mrs. Jennie Clark, at 2 House Park. The doctors discovered the case on Monday. When the doctors located the case two children were busy removing Mrs. Clark's belongings to another house. The Rochester authorities at once stopped the removal, fortified the house and its contents, and placed the children as well as a child of Mrs. Clark's under surveillance.

A GOOD STORY

Always find a ready listener. This is true of a well told story. But the telling is not enough. Like the dress of a man, there must be something attractive about it. The story must be told in a way that will draw the listener in. The story must be told in a way that will draw the listener in.

Died at the Institute.

Sidolia Goss, a pupil at the D. & D. Institute, died there at eleven o'clock last night after several weeks' illness from pneumonia. She was 13 years of age and her friends reside in Seagrave, where the interment will take place.

The Little Runaway.

Chief Newton received no reply to his letter to the parents of the missing child, John Henry, who came to the police station on Wednesday. The Mayor gave him a ticket and he was forwarded to Toronto to-day. The boy was very much cared for by the police force, Officer Stenburgh providing him with some comfortable clothing, which was easily made.

Cable Advices From London

State That Dr. Ireland Has Not Arrived.

Not on the Tritonia or Scotsman.

A despatch from London says: Have made the most extensive inquiries concerning the case of Dr. Ireland, of Toronto, Ont., who disappeared in Montreal thirteen days ago, and who was supposed by some to have taken passage upon one of the steamships which departed from the St. Lawrence within a few days of his disappearance.

I am enabled to state that Dr. Ireland was not a passenger upon either the Dominion liner steamer Scotsman, the Dominion liner Tritonia, the Trans-Canada liner Galia. At least, there is no person of that name on the passenger list of any of these boats, and no man answering the description of the missing doctor was on board.

A Montreal gentleman writes the Star from Halifax, regarding Dr. Ireland, whose disappearance is still a mystery, as follows:

"I noticed in the columns of your paper an account of the missing Dr. Ireland, which I regret very much."

"I became intimate with the doctor on board the Dominion liner June, bound for England, and received a detailed account of his experiences in South Africa, telling me he was the only man to take a journey offered him as surgeon in the British forces there."

"He spoke affectionately of his wife and his children, and of the life he led in the latter. He spoke and acted in a strange manner frequently and was subject to fits of depression, notwithstanding my efforts to cheer him, being troubled also from a wound in the groin."

"I saw him last on the Prince's Landing stage, in Liverpool, on June 17, where he was waiting to embark on the ship he was returning to his home."

"He was very entertaining, and when himself would play the banjo and sing; he made many friends on board. J. B."

MR. BAKER LOVED.

Chathamites Very Sorry to Lose Him.

The following from the Chatham Herald of the 24th inst. will be read with interest by Mr. Baker's many friends. "The Chatham Herald of the 24th inst. contains a notice of the death of Mr. E. N. Baker, the earnest and energetic pastor of the Park St. Methodist church, who has just passed away at his home in Chatham, N. B. He was a native of Chatham, N. B., and had resided in Chatham for many years. He was a man of great energy and ability, and was highly respected by his congregation. He was a member of the Chatham Association of Ministers, and was a prominent figure in the community. His death is a great loss to the church and to the community."

The departure of the Rev. Mr. Baker will be sincerely regretted, not only by the congregation of the Park street church, but by the city at large. The reverend gentleman has been a member of the Park street church for over twenty years and during that time has endeavored himself to the citizens at large by his earnest fidelity to his calling and generous liberality to all classes and creeds.

His pastorate of the Park St. church has been especially successful. Last year he inaugurated a scheme to reduce the church debt, amounting to \$5,000, by which a reduction of \$1,000 was made and arrangements completed for the annual reduction of the balance to \$4,000. Mr. Baker was also mainly instrumental in forming the intermediate junior leagues in connection with the church, which have now over 100 members, and 75 respectively, both of which have proved a great acquisition to the church work.

Mr. Baker's pastorate has been characterized by energy, popularity and liberality, and in his removal both church and community suffer a distinct loss.

The Hamilton Ground.

A despatch from Trenton dated yesterday says: The St. Hamilton was backing away from the dock about 11 o'clock to-day she ran aground, owing to the shallowness of the water in the harbor, caused by the strong wind blowing from the west. The ship was stuck fast, and the water level rose. The ship was stuck fast, and the water level rose. The ship was stuck fast, and the water level rose.

Oil at Belleville.

The following appeared in the Toronto Star: "Belleville has struck oil, and men in the vicinity believe that the oil is good. Samples of the borings have been sent to the Bureau of Mines, but Mr. H. H. Bygo, of Toronto, who has been sent to the site, believes that the oil is good. The borings have been sent to the Bureau of Mines, but Mr. H. H. Bygo, of Toronto, who has been sent to the site, believes that the oil is good. The borings have been sent to the Bureau of Mines, but Mr. H. H. Bygo, of Toronto, who has been sent to the site, believes that the oil is good."

Mr. F. S. Wallbridge, Solicitor for the Pennsylvania syndicate, was seen in the reference to the above item, but declined to make any statement, other than that owing to an accident, boring had been suspended for the past six weeks.

The Little Runaway.

Chief Newton received no reply to his letter to the parents of the missing child, John Henry, who came to the police station on Wednesday. The Mayor gave him a ticket and he was forwarded to Toronto to-day. NORTH HASTINGS ABANDONED.

Authoritative Announcement Made This Morning.

The first authoritative announcement as to the negotiations in regard to abandoning North Hastings was made by Mr. W. A. Allen, M.P.P., to THE INTELLIGENCER this morning.

Mr. Allen acknowledges a corrupt set on the part of an agent, one Ben Egan, a scrutineer at the poll at St. O. Allen, who remitted an account for a couple of dollars to a man in order to secure his vote. Each party is to pay his own costs and all personal charges are dropped. The case will be formally dismissed. B. A. Grant represents the politician in the negotiations and W. J. Moore looked after Mr. Allen's interests.

Mining Notes.

(Marmora Herald.)
In conversation with Mr. J. Cook, who returned to town to spend Sunday, we learned that everything in connection with the development of the Booth mine in the township of Clarendon, County of Frontenac, is going on nicely.

"We have already ordered and will be put up for taking out the arsenic. Messrs. employed are from seventy to eighty men are employed at the present time. Messrs. of Detroit, the owners of the mine, and Prof. Eames are going to move to Kingston."

An American company has purchased the Guelph Pileco, owned by J. Denier. The purchase money is to be put up in 15 days. On expiration of the time, if money is not up other parties are willing to buy it.

Mr. James Bowen returned Friday from Barrie Copper Mines, which is being operated by a New York company. The company have been working at the mine about a year. One shaft is 75 feet, another 50 feet and several smaller shafts. A. M. Chisholm is the manager. From 20 to 25 men are employed. The prospects are that this will be a good paying mine, as the ore keeps improving. A thorough test will be given the mine to a depth of 2 feet before more and other borings are erected. The ore at present is sent in large lots to New York, where it is tested. During last week the mine was put in operation, putting in steam hoists and steam pumps.

(Campbellford Herald.)
The Dickson Bros. have lately received additional orders from the Canadian Gold Fields Company, who are engaged in mining operations at Dolores, east of Marmora. They are dressing up the shafting for the company's new reduction works, which are about to be erected at that place for extensive operations, and have under construction a number of steel dam cars for conveying ore from the mine.

The Slater Boots Again.
Haines & Lockett opened up Saturday another large lot of the three dollar Slater Boots for the boys. The boots are made of the best material and are very comfortable. The Slater Boots are still away ahead of them all.

McSorley's Twins.

The metropolitan success, McSorley's Twins, was a great success last night. The company was a first class one, and the parts were all well taken. The music and dancing specialties were of a much higher order than is usually expected of from such shows. The sayings and doings of the Tammany politician and his friends, and the audience in a continuous roar of laughter, and the naughty twins and the gentleman of leisure also afforded great amusement.

The price has been raised, but Manager Adams has brought here the company, and has scrupulously clean one, although the name had many persons to anticipate otherwise and thus prevented a better house.

The Adventures of Francis: Founding, Thief, Juggler and Fencing Master, during the French Revolution. By Dr. S. W. Mitchell. Edited by J. G. Wynn. The Copp, Clark Company, Montreal, Toronto, Paper, 70c; cloth, \$1.25.

A highly pleasing work, light and entertaining—much so that the reader's only regret, after its perusal, is that it was not of greater length.

About Catarrh.

Corsets.

Two of the most popular makes of Corsets in the United States are the P. N. and R. G. They are very extensively used by the American Ladies and have become great favorites in this country wherever they have been introduced. We are sole agents here for those makes and have them in a number of their best styles in all sizes. Prices range from \$1.00 to \$3.50 a pair. Ask to see them in our Mantle department.

Stockings.

For Boys. Special heavy ribbed knees and double heels and toes in four different qualities, in every size. Ladies' and Children's Cashmere and heavy Woolen Stockings, best makes, perfect dye, every size.

Prices.

It is well known that the high price the consumer often pays for goods is owing to the goods passing through the hands of an unnecessary number of dealers. On account of our business connection, we can buy DIRECT FROM THE SOURCES OF PRODUCTION, namely the manufacturers in Europe, the United States and Canada.

They are beautifully finished garments, some of them handsomely trimmed with braid.

We have them at \$7, \$8, \$9.50, \$13.50, up to \$25 for the coat and skirt.

See them in the Mantle department.

Black Dress Skirts

Splendid values in Ladies' Black Dress Skirts in plain and fancy Lustrous and Fancy Wool Goods, including the New Bayadere Stripe patterns. These are perfect fitting and finished with deep facings and velvet linings. All full width and new shape at \$2.50, \$3.25, \$3.50 and \$4.

To the Editor of the INTELLIGENCER.

DEAR SIR, In reading the report of the Council meeting last evening, Mr. Dresser, who is here promoting the Carpet manufacturing industry, is reported as saying that he thought there were a number of industries in the city that could do better if they were in smaller premises. This opinion of Mr. Dresser was unexpected and quite gratifying. The buildings which he refers to were not put up for ornament, but at one time worked to their full capacity and they have contributed to the city's exchange for twenty years. It seems to the writer like a piece of impertinence for a stranger to give an opinion on the existing business quarters and the premises occupied by them, and just here we would remark that, had the existing industries in the city been assisted to the same extent that he is asking for the Carpet industry, the premises would have been far too small. Moreover, I think Mr. Dresser has shown a complete lack of knowledge of the city's exchange for twenty years. LONDON STREET CAR STRIKE

An Attempt to Run Cars Had to Be Abandoned.

Large Crowd Gathered at a Principal Corner and Pelted the Car With Eggs and Other Missiles—All the Windows Smash—Huge Trouble Expected. The Mayor Orders the Company to Keep the Cars Running.

London, Oct. 29.—Up till noon yesterday not a car had left the barns of the Street Railway Company.

All trains are being worked for some time to take the place of strikers. At 2 o'clock in the afternoon the Street Railway Company started four cars from the barns, the first to run since the strike began. Thursday morning the cars were ordered to start, and a large crowd gathered, and the men on board the cars were pelted with eggs and other missiles. A large number of the principal windows were smashed. A whole pane of glass was left in the cars and the windows were broken for the first time. No further attempt has been made to take them out.

Mass Meeting of Strikers.

A mass meeting of those in sympathy with the strikers was held last night. Exciting things are expected to happen to-day, as the Mayor has notified the company that they must keep their cars running. The action will precipitate matters, especially if the company try to run their cars with non-striking drivers, which is especially prohibited by law. The strikers believe this will do much to win the day for them if the authorities enforce the law.

Much of the egg throwing and damage done to cars was the work of empuirers.

The Report Confirmed.

Paris, Oct. 29.—The French Foreign Office has received a despatch from its diplomatic agency at Cairo concerning the reported arrival of Major Marchand at Khartoum.

No Settlement Authorized.

New York, Oct. 29.—Advices received from Paris yesterday afternoon say that President Faure has authorized the statement that no settlement has been reached between England and France regarding Fashoda.

Position the Same Officially.

London, Oct. 29.—The morning paper editorial regarding Major Marchand's movement from Fashoda to Khartoum is indicative of a yielding on the specific question in controversy, although the position is officially unchanged.

The Times says: "The desire ascribed to France to raise a general discussion ought to be in itself sufficient answer to the ridiculous rumor circulated in ill-informed quarters yesterday (Friday) that we intend to put into her hands by declaring a protest against Egypt. Egypt would be more unlikely at the present moment."

The Daily News takes it for granted that Major Marchand will come to Paris.

WHAT BRITAIN WILL DO.

Marchand May Remain at Fashoda as a Visitor, But Cannot Get Any Reinforcements.

London, Oct. 29.—The Pall Mall Gazette yesterday afternoon summarizes the result of the meeting of the British Cabinet on Thursday as follows:

One-Marchand's withdrawal was not unconditional, and no undertaking or promise can be given to discuss the question raised by the meeting of the Cabinet on the Nile, and such like.

Two—When Marchand is withdrawn it will be determined whether the questions raised admit of discussion, and under what conditions the discussion can be proceeded with.

Three—If possible, facilities will be afforded to assist in Marchand's withdrawal by whatever route selected.

Four—Marchand is not to be withdrawn there will be no interference with his remaining at Fashoda, nor date fixed for his withdrawal. No reinforcements will be sent to him.

MARCHAND LEAVES FASHODA

Commander of the French Nile Forces Now at Khartoum.

The Major is on his way to Cairo, and the left a substantial force in Khartoum. The Major is on his way to Cairo, and the left a substantial force in Khartoum.

Cairo, Oct. 29.—A boat recently due from Khartoum, but which did not leave on its return journey, and it is asserted that Major Marchand is on board of her.

It is added that the Major deemed it necessary to personally bring to Cairo the authentic position of his report of the explorations. Captain Gernon was left in command of the French mission at Fashoda.

Major Marchand left Fashoda on Sunday and arrived at Khartoum yesterday morning. He will start for Cairo to-day. All the other Frenchmen remain at Fashoda. Major Marchand's departure from there is not regarded as a settlement of the question as to the possession of the Nile, which is in dispute between Great Britain and France.

HINTS FOR... Clothing Buyers.

Why is it that so many careful dressers wend their way to this store for READY-TO-WEAR CLOTHING? Why is it that they continue to come and come in increasing numbers, not only for Clothing, but after Clothing needs of every description? There must be good reasons for it, and if these reasons are not evident to you we would advise you to make investigation just for your own satisfaction and subsequent profit. To help you in making an intelligent comparison and investigation we throw out these hints: Where, outside of this store, will you find Clothing to equal ours for the money—style, fit, workmanship, finish and fabric considered? Where will you find another stock so entirely free from unworthy and undesirable goods and still satisfy every demand for all classes? Are you always sure of your money back if goods are not satisfactory? That our way of doing the Clothing business, and if it appeals to your judgment we invite you to come and see the goods we offer.

With Two Kinds of Fire.

You insure against one kind, don't risk that by another kind—like new-fashioned insurance schemes. They may be all right, but you don't know it very much. They haven't been merited like the Liverpool, London and Globe Insurance Company; pay a good honest price for cover insurance. We have that kind and the records prove it.

London Street Railway Strike Takes on a Serious Aspect.

French-Canadians Were Brought in on Saturday to Take the Place of the Strikers—After Learning the True State of Affairs They Departed Amid Cheers—Riot Act Passed by the Company Determined.

London, Ont., Oct. 31.—The street car strike reached its acute stage on Saturday, but as no attempt was made to run a car everything was quiet. Crowds of French-Canadians, however, were at the junctions of crossings, expecting to see trouble. The situation has become more serious, and instead of the strike being settled more trouble is in sight, and there may be an ultimatum for termination. Manager Carr imported a number of French-Canadians to run the cars.

The train from Montreal arrived at the G.T.R. at noon on Saturday and on it were eleven men, and arrived to take the place of strikers in the service of the London Street Railway.

Manager Carr, with a pale and anxious face, came out of the Twentieth Street station and walked to the platform. When the train pulled up, Carr approached the smoking car, where eleven men descended. Carr, who was accompanied by two of the number and the rest surrounded him and he then led the way to the rear of the station.

Accused by Police.

At the request of Mr. Carr Chief of Police Williams sent several policemen to the station, and they followed Mr. Carr and the men to the rear of the station. There were several calls in waiting, which indicated that possibly more men had been expected, as only three of the five cars were occupied. To the first and second cars Mr. Carr escorted some of the men and took in three of them. With him in the third car, he accompanied the drivers to drive to the car barn.

Ominous Yell of "Scabs."

The ominous yell of "scabs" went up until at one moment it was feared a riot would be made on the vehicles and on the street. The police kept themselves in evidence and the drivers who took in their passengers and were in ignorance of the arrival of the men, drove off rapidly into York street, and then they placed the cars, as indicated by Mr. Carr. At the car barn a committee of the ex-employees was assigned to keep watch for any new men which may be made on the part of the company.

It is quite certain that the strikers are more determined than ever. They could say that the London Street Railway Company would not be allowed to run their cars.

The "Scabs" Return Home.

A large number of sympathizers with the strikers, who gathered at the Grand Trunk station yesterday afternoon to witness the departure of their home, of about 20 of the French-Canadians who came Saturday to fill the places of the rebellious employees. The spokesman of the so-called "scabs" said the men were not aware until they arrived that a strike was on, and on learning the true state of affairs and decided to return home again. The large crowd present cheered lustily as the train pulled out, and were greatly pleased at the turn affairs had taken. The company, however, are not discouraged, and it is said have more men in readiness to operate their cars. The strikers have assumed police protection, and will probably make another attempt to run their cars to-day.

Largely "Riot Act" posters were being stuck up in conspicuous places by the police last night, cautioning the public not to use violence and forbidding them to congregate in crowds when the cars are run out. Should this prove effective, and the company succeed in their effort, it is the belief that a large majority of the people will boycott the cars. The sympathizers have been very active in their strength, and trouble is expected to-day when the cars commence running.

HOW MUCH DID THEY BUY?

Mr. Helms Is After the Canadian Railway Company.

Montreal, Oct. 31.—It is stated that Messrs. McMaster and Macleannan, advocates, will take out an action to-day against the Canadian Railway Company for \$100,000. The action is taken by Mr. Helms, who will be remembered, sold the railway property, and his railway property as well as the C.P.R. Helms received about \$400,000, but he claims the personal property at the time of the sale of about \$100,000, which he contends was not included in the transfer to the Canadian Railway Company, on the contrary, claim that they bought everything in sight.

Mr. Dan Mann, vice-president of the Montreal Street Railway, said Liverpool on Sunday for Montreal.

These Exporters Worried by Fairs.

Montreal, Oct. 31.—J. C. Warrington, leading cheese exporter, has decided to make an assignment on the demand of C. D. McLean of South Finch, Ontario. Mr. Warrington had several branches in the Dominion and largely sold the cheese market. The liabilities are expected to be very heavy, and many farmers throughout the Dominion will, it is said, be hit hard.

Norman Takes Frederic's Place.

New York, Oct. 31.—The New York Times announced yesterday the engagement of Mr. Henry Norman, the London correspondent, succeeding Lord Frederic, deceased. Mr. Norman has for some time been the London correspondent for the London Daily Chronicle.

THEIR SOLE OBJECT.

Kleinkind Officials Make Making Money Their Chief End.

Oct. 31.—Hamilton, Oct. 31.—James White of Hamilton, who has spent thirteen years in the Yukon district, has returned home to the Yukon. Mr. White considers the Yukon a very good place to live in, and he is now in the Yukon district, in the world. Speaking about the charges of crookedness against the Government officials, he said that he had been paid perfectly true, it being his sole object to get something out of the Yukon, and he is now in the Yukon district, in the world. DREYFUS GETS A NEW TRIAL

That is the Decision Reached by the Court in Paris.

The Judges of the Court Very Deliberately Considered the Question—The Application Affirmed to Be in Proper Form—Former Condemnation of Captain Dreyfus.

Paris, Oct. 31.—The decision of the court in the Dreyfus case on Saturday (textually was as follows:—

In view of the letter of the Minister of Justice, dated Sept. 30, 1898, in view of the arguments of the public prosecutor, and of the decision of the court, the court pronounced by the first court-martial of the military government of Paris on Dec. 22, 1894, against Alfred Dreyfus, then a captain of artillery attached to the general staff, and of article 143 to 145 of the code of criminal procedure, unanimously by the vote of June 18, 1895, relative to the admissibility of an application in proper form, for revision:—

Whereas, the matter has been brought before the court by the public prosecutor in virtue of the express order of the Minister of Justice;

Whereas, the application comes within the category of the cases contemplated in article 143 of the code of criminal procedure, within the period fixed by article 144; Whereas, the judgment, a revision of which is demanded, was the work of a Court of Justice;

Whereas, the documents produced do not place the court in a position to decide all the merits of the case and there is ground for making a supplementary inquiry;

For these reasons the court declares the application to be in proper form, and admits it, and states that it will institute a supplementary inquiry, and declares there is no ground at the present moment for deciding on the public prosecutor's application for a suspension of the penalty.

The judges of the court were occupied for three hours and a half in considering the judgment.

The public, whose admission to the court was regulated with the greatest care, awaited the decision with marked interest.

During the suspension of business the public crowded into the lobby and there was a great deal of excitement.

There was no demonstration when the court rose.

Dreyfus May Be Liberated.

Although the liberation of Dreyfus has not been ordered, the court can order him brought to France at any moment, and will probably do so at an early stage of the inquiry. The court refrained from ordering his release on Saturday, because it would have been a presumption of his innocence.

Quiet Sunday in Paris.

Paris, Oct. 31.—Nowhere was there any sign of agitation on Sunday. The city is quiet. Most of the Paris papers support the decision of the court. The court, although the Gaulois and the Liberte bows to the decision, but was not so hot in the agitation.

Figures Announced.

Figures were announced by the court, which have been deprived of his membership in the Legion of Honor. The Dreyfus decision seems to have delayed a solution of the Dreyfus case. M. De Freycinet is again hesitating to accept the portfolio of Minister of War on the ground that, in view of the role of the Dreyfus case, it would be inadvisable for two Frenchmen to hold the portfolios of War and Justice.

The Car With Dreyfus.

London, Oct. 31.—An article in the National Review, written by J. L. Max, who has previously shown himself to be an informed and fair writer, has caused some stir. He affirms that the Car has now become a convinced Dreyfusard, and is taking a sympathetic interest in the case of the "scab."

PORTUGAL'S AFRICAN POSSESSIONS.

France Has Found Something New to Stir Up a Fuss About.

London, Oct. 31.—The Financial News declares that it has no doubt that the statement that in the last few days France has made strong representations to Portugal regarding the Anglo-Portuguese agreement affecting Portuguese possessions in East Africa, informing Portugal that the British Government would not tolerate any further extension of the territory on the mainland opposite Madagascar to any power as an ultimatum.

France recognizes Portugal's condition of financial embarrassment, and the French bank, instigated by the Government, has offered to finance the next Portuguese coupon. The Portuguese Government has just published a note declaring that it will not alienate its rights of sovereignty in any portion of Portuguese territory.

ANNOUNCED AGAIN.

Another French Paper Says England Has Accepted the Ultimatum.

Paris, Oct. 31.—The Paris makes the announcement that immediately on the resumption of the Chamber of Deputies, the French Government will accept the ultimatum of the Chamber of Deputies, which has been accepted by the British Government.

HEART DISEASE.

Some Facts Regarding the Rapid Increase of Heart Troubles.

Do Not be Alarmed, But Look for the Cause.

Heart troubles, at least among Americans, are certainly increasing, and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomachs, of poor digestion.

Real, organic heart disease is incurable; but not one case in a hundred of heart trouble is organic.

The close relation between heart trouble and poor digestion is because both organs are controlled by branches of the same great nerve, the Sympathetic and Vagus nerves. In other words, the heart is affected by the same factors which affect the stomach, and the stomach is affected by the same factors which affect the heart.

Poor digestion also poisons the blood, making it thick, watery, which irritates and weakens the heart.

The most sensible treatment for heart trouble is to improve the digestion and to insure the prompt assimilation of food.

This can best be done by the use of a reliable, safe, pleasant and effective digestive preparation, like Stuart's Dyspepsia Tablets, which may be found at most drug stores and which contain valuable, harmless digestive elements in a pleasant, convenient form.

It is safe to say that no regular, persistent use of Stuart's Dyspepsia Tablets at meal time will cure any form of stomach trouble, except cancer of the stomach.

THE PROPOSED DISARMAMENT.

Each Power Will Be Represented by Three Delegates.

London, Oct. 31.—It is announced from St. Petersburg that all the powers have now accepted the Czar's invitation to send delegates to the proposed disarmament conference. Each power will be represented by three delegates, and it will be a record diplomatic assembly in point of numbers.

Count Marcellini, the Russian Minister of Foreign Affairs, is going to Livadia, where he will confer with the Czar on the outlines of the programme which will be submitted to the delegates of the powers. The Russian Minister is very optimistic as to the result of the conference.

Kaiser William at Jerusalem.

Jerusalem, Oct. 31.—Emperor William and Empress Augusta Victoria, with their suites, arrived in perfect health at the city of the Holy Sepulchre. The streets presented a lively appearance, and the crowds were joyfully awaiting the arrival of the German Emperor.

The formal entry through the Jaffa Gate was heralded by the roar of guns at the Citadel, and the Turkish band played the German Anthem.

From the Tower of David, Emperor William and Empress Augusta Victoria proceeded on foot.

Yesterday the Imperial pair attended services at the Evangelical Church at Bethlehem, afterwards paying a visit to the Church of the Nativity.

Emperor William and the Empress, who were accompanied by their suites, spent ten minutes at the scene of the crucifixion.

Germany With Britain.

Berlin, Oct. 30.—The French crisis is anxiously watched in Germany. In the French question the German Government, as well as the German newspapers, distinctly side with Great Britain, and the German Government is in every respect better for German interests, especially from a commercial point of view.

Muslims Murderers Executed.

Candia, Island of Crete, Oct. 31.—Five more of the Muslims convicted of the taking part in the massacre of British soldiers on Sept. 6 were executed on Saturday. In addition, four British soldiers have been sentenced to twenty years' imprisonment at hard labor. Despatches from Candia on Oct. 18 last announced that ten Muslims were hanged there for participation in the massacre of Sept. 6.

A Cyclone in London.

London, Oct. 31.—During a severe storm last night a small area, about half a mile square, around Denmark Hill, Canterbury, London, was visited by a cyclone. The wind was estimated at 100 miles an hour, and the damage was considerable.

Of all the bereavements which are met with in the home, the death of a child is the most painful. It is a death which is not only a loss to the family, but a loss to the world.

....HINTS FOR....

Clothing Buyers.

Why is it that so many careful dressers wend their way to this store for READY-TO-WEAR CLOTHING?

Why is it that they continue to come and come in increasing numbers, not only for Clothing, but after Clothing needs of every description? There must be good reasons for it, and if these reasons are not evident to you we would advise you to make investigation just for your own satisfaction and subsequent profit. To help you in making an intelligent comparison and investigation we throw out these hints: Where, outside of this store, will you find Clothing to equal ours for the money—style, fit, workmanship, finish and fabric considered?

Where will you find another stock so entirely free from unworthy and undesirable goods and still satisfy every demand for all classes? Are you always sure of your money back if goods are not satisfactory? That's our way of doing the Clothing business, and if it appeals to your judgment we invite you to come and see the goods we offer.
